## **Independent Auditors' Report**

The Board of Trustees Fashion Institute of Technology:

#### Opinions

We have audited the financial statements of the business-type activities and the aggregate discretely presented component units of the Fashion Institute of Technology (FIT), as of and for the years ended June 30, 2023 and 2022, and the related notes to the financial statements, which collectively comprise FIT's basic financial statements for the years then ended, as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities and the aggregate discretely presented component units of FIT, as of June 30, 2023 and 2022, and the respective changes in financial position and, where applicable, cash flows thereof for the years then ended in accordance with U.S. generally accepted accounting principles.

## Basis for Opinions

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of FIT and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. generally accepted accounting principles, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about FIT's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

## Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- · Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or
  error, and design and perform audit procedures responsive to those risks. Such procedures include
  examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of FIT's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about FIT's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

### Required Supplementary Information

U.S. generally accepted accounting principles require that the management's discussion and analysis, schedule of changes in the college's total OPEB liability and related ratios, schedule of the college's proportionate share of the net pension liability – New York State Teachers' Retirement System, and schedule of employer contributions – New York State Teachers' Retirement System, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audits of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

## Supplementary Information

Our audits were conducted for the purpose of forming opinions on the financial statements that collectively comprise FIT's basic financial statements. The schedule of reconciliation of the college's revenues, expenses, and other changes to the audited financial statements, schedule of state operating aid, and schedule of state-aidable FTE tuition reconciliation for the year ended June 30, 2023 are presented for purposes of additional analysis and are not a required part of the 2023 basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the 2023 basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the 2023 basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the 2023 basic financial statements or to the 2023 basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the information is fairly stated, in all material respects, in relation to the 2023 basic financial statements as a whole.

New York, New York December 13, 2023

Management's Discussion and Analysis

June 30, 2023 and 2022

(Unaudited)

#### Introduction

The Fashion Institute of Technology (the College or FIT) is a community college under the State University of New York (SUNY) and is sponsored by the Department of Education of the City of New York.

The College is a specialized college of art and design, business, and technology devoted to preparing men and women for careers in fashion, design, and its related professions and industries, and also providing leadership preparation and a full range of liberal arts courses, as well as counseling and placement services, extracurricular activities, and access to the cultural life of New York City. The College has four academic schools: Art and Design; Business and Technology; Liberal Arts; and Graduate Studies. The College occupies five buildings located on a two-block square campus bounded by 7th and 8th Avenues and West 26th to 28th Streets in the Borough of Manhattan.

Founded in 1944 as the answer to the recognized needs of the fashion industry for professionally prepared people, the College is a unique institution. In 1951, the College became one of the first community colleges under SUNY empowered to grant the Associate in Applied Science degree. In 1975, an amendment to the education law of New York State was approved, permitting the College to confer Bachelor of Fine Arts and Bachelor of Science degrees. Four years later, another amendment was approved authorizing the granting of master's degrees. The College receives its principal support from New York State and New York City appropriations and grants as well as from tuition revenue.

The College is a fully accredited member of the Middle States Association of Colleges and Secondary Schools, the National Association of Schools of Arts and Design, and the Council for Interior Design Accreditation. In addition, the Museum at FIT (MFIT), a department of the College, received the highest national recognition for a museum – accreditation from the American Alliance of Museums (AAM). Accreditation, which is awarded to only 6% of America's museums, signifies the highest level of excellence. The AAM accrediting commission found MFIT not only to have "one of the most important collections of its type" but also to meet "national standards and best practices for a U.S. museum." It also found FIT "to be a good steward of its resources held in the public trust and committed to a philosophy of continual institutional growth."

The following discussion and analysis of the financial performance and activity of the College is intended to provide an introduction to, and understanding of, the basic financial statements as of and for the years ended June 30, 2023 and 2022 with comparative information for the year ended June 30, 2021. This section has been prepared by the management of the College and should be read in conjunction with the basic financial statements and notes thereto, which follow this section.

The basic financial statements include three financial statements, prepared in accordance with Governmental Accounting Standards Board (GASB) accounting principles.

- Statements of net position The statements of net position provide information about the nature and amounts of investments in resources (assets and deferred outflows of resources) and the obligations to the College's creditors (liabilities and deferred inflows of resources), with the difference between the two reported as net position.
- Statements of revenues, expenses, and changes in net position (SRECNP) SRECNP report how the College's net position changed during the year. The statement accounts for all of the year's revenues and

Management's Discussion and Analysis

June 30, 2023 and 2022

(Unaudited)

expenses (operating and nonoperating), measures the financial results of the College's operations for the year, and can be used to determine how the College has funded its costs.

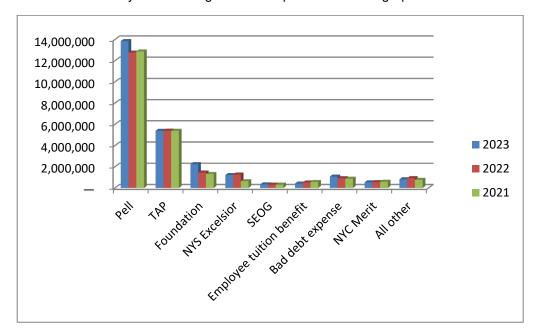

• Statements of cash flows – The statements of cash flows provide information about the College's cash receipts, cash payments, and net changes in cash and cash equivalents resulting from operating activities, investing activities, and capital and noncapital related financing activities.

## **Highlights Regarding the Financial Statements**

Assets, deferred outflows of resources, liabilities, deferred inflows of resources, revenues, and expenses
are presented for the College and each of its component units, FIT Student Housing Corporation (Student
Housing) and the Fashion Institute of Technology Foundation (Foundation). The following discussion only
focuses on the accounts and transactions of the College.

Assets and liabilities are categorized as either current or noncurrent; revenues and expenses are categorized as either operating or nonoperating. GASB Statement No. 35, Basic Financial Statements – and Management's Discussion and Analysis – for Public Colleges and Universities – an Amendment of GASB Statement No. 34, requires that public appropriations, gifts, and investment income be presented as nonoperating revenue. As a result, public institutions will normally show an operating deficit.

Student tuition and fee revenue is shown net of scholarship expense, employee tuition benefit expense, and bad debt expense, with the appropriate functional expenses reduced by the same amounts. Stipends and other direct payments to students are presented as student aid expense. In fiscal years 2023, 2022, and 2021, tuition and fee revenue was reduced by the following amounts represented in the graph and chart below:

5

Management's Discussion and Analysis

June 30, 2023 and 2022

(Unaudited)

	_	2023	2022	2021
Pell	\$	13,845,233	12,761,514	12,867,493
NYS Tuition Assistance Program (TAP)		5,390,645	5,402,393	5,384,526
Foundation		2,239,725	1,454,052	1,313,441
NYS Excelsior		1,215,020	1,266,059	627,414
Federal Supplemental Educational Opportunity				
Grant (SEOG)		336,303	315,967	305,209
Employee tuition benefit		471,783	517,384	557,084
Bad debt expense		1,075,192	917,107	867,726
NYC Merit		528,800	543,200	580,000
All other		763,789	926,064	759,499
	\$_	25,866,490	24,103,740	23,262,392

In the SRECNP, the costs of acquiring and improving capital assets, such as land, buildings, and equipment, are not shown, and depreciation is presented as an operating expense. The following schedule compares capital expenditures and depreciation expense for fiscal years 2023, 2022, and 2021 (note 6 – Capital Assets, Net).

	-	2023	2022	2021
Paid from operating funds:				
Construction in progress	\$	7,712,496	6,577,251	3,000,150
Building improvements		1,380,808	616,062	2,691,790
Equipment		4,915,289	750,206	526,984
Library materials		95,492	64,016	63,021
Leasehold improvements		91,429	_	40,618
Right-to-use lease assets and SBITA assets	_	52,546		
Total additions	\$_	14,248,060	8,007,535	6,322,563
Depreciation expense	\$	20,524,489	20,558,806	23,447,516

Principal payments on the College's long-term debt are not presented in the SRECNP. In 2023, 2022, and 2021, total debt payments on Dormitory Authority of the State of New York (DASNY) bonds included interest expense of \$11,781, \$89,719, and \$147,563, respectively, and principal payments of \$676,500, \$635,000, and \$370,000 were made in 2023, 2022, and 2021, respectively. All principal and interest payments are funded entirely by New York State and New York City appropriations (note 7 – Bonds Payable).

Management's Discussion and Analysis

June 30, 2023 and 2022

(Unaudited)

## Reporting on Retiree Health Benefits Expense and Liability

The College recognizes its total other postemployment benefits (OPEB) liability in accordance with GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other than Pensions* (GASB No. 75). GASB No. 75 establishes standards for recognizing and measuring liabilities, deferred inflows (outflows) of resources, if applicable, note disclosures, and required supplementary information in the financial reports of state and local governmental employers. OPEB includes postemployment healthcare, as well as other forms of postemployment benefits (e.g., life insurance) when provided separately from a pension plan. For defined benefit OPEB, GASB No. 75 identifies the methods and assumptions that are required to be used to project benefit payments, discount projected benefit payments to their actuarial present value, and attribute that present value to periods of employee service.

GASB No. 75 does not require that the unfunded liability actually be funded, but requires only that the College account for the unfunded accrued liability. In fact, New York State legislative action would be required to permit the College to establish a trust to fund this liability. The financial statements at June 30, 2023 and 2022 include a liability in the amount of approximately \$77.2 million and \$75.4 million, respectively, which represents the College's unfunded liability. In fiscal years 2023, 2022 and 2021, the College recognized OPEB expense of \$(0.10 million), \$4.8 million and \$12.3 million, respectively. Actual OPEB contributions in each of the fiscal years 2023, 2022 and 2021 were \$2.2 million, \$2.7 million and \$2.4 million, respectively.

See note 12 – Postretirement Health Benefits for additional information.

### Reporting on the New York State Teachers' Retirement System Pension

During 2015, the College implemented GASB Statement No. 68, *Accounting and Financial Reporting for Pensions* (GASB No. 68). For the New York State Teachers' Retirement System (TRS or the System) pension plan the College participates in, GASB No. 68 requires that the College's proportionate share of the System's net pension (liability) asset be reflected in the reported amounts on the statement of net position, as well as deferred inflows and outflows of resources from pension activities. As a result, the College has recorded a participating proportion of the net pension (liability) asset of TRS.

Concurrently with the implementation of GASB No. 68, the College implemented GASB Statement No. 71, Pension Transition for Contributions Made Subsequent to the Measurement Date (GASB No. 71). This Statement addresses an issue in GASB No. 68 concerning transition provisions related to certain pension contributions made to defined benefit pension plans prior to the implementation of GASB No. 68 by employers and nonemployer contributing entities.

At June 30, 2023, 2022, and 2021 the College's net pension (liability) asset was \$(2.0 million), \$20.3 million, and \$(3.4 million), respectively, which represents its proportionate share of the TRS net pension (liability) asset. The College's proportionate share of the net pension (liability) asset was based on the ratio of the College's actuarially determined employer contribution to the total TRS actuarially determined employer contribution. The net pension liability reported at June 30, 2023 was measured as of June 30, 2022, and was determined by an actuarial valuation as of June 30, 2021 with update procedures used to roll forward the net pension liability to June 30, 2022.

The proportionate share of the net pension (liability) asset was approximately 0.10%, 0.12%, and 0.12% measured at June 30, 2022, 2021, and 2010 respectively.

Management's Discussion and Analysis

June 30, 2023 and 2022

(Unaudited)

See note 11 - Employee Pension Benefit Plans.

#### **Statements of Net Position**

The statements of net position present the financial position of the College at the end of the fiscal year and include all assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position (the difference between total assets and deferred outflows of resources and total liabilities and deferred inflows of resources). Assets and liabilities are classified as current and noncurrent.

Current assets include: unrestricted cash and cash equivalents; investments that mature within a year; receivables and pledges due within a year; inventories; and other short-term assets, such as prepaid expenses and security deposits. Noncurrent assets include: deposits with bond trustees; restricted and long-term investments; capital assets; net of accumulated depreciation; the right-to-use lease assets; net pension assets, as applicable; and receivables and pledges deemed to be collectible in more than a year.

Deferred outflows of resources include the deferred amounts on refunding and deferred amounts relating to pensions and OPEB. Deferred outflows of resources are a consumption of net position by the College that is applicable to a future reporting period.

Current liabilities include all accrued expenses and liabilities that are payable within the next fiscal year, current portion of bonds payable, as well as unearned revenues, principally from summer programs, the current portion of lease liabilities, and student credit balances. Noncurrent liabilities are those that are due to be paid beyond the next fiscal year, including accrued vacation and sick leave, accrued retiree health benefits payable, the non-current portion of lease liabilities, net pension liabilities, as applicable, and the noncurrent portion of bonds payable.

Deferred inflows of resources include deferred amounts relating to pensions and OPEB. Deferred inflows of resources are an increase in net position by the College that is applicable to a future reporting period.

Net position consists of three categories:

- Net investment in capital assets includes the institution's equity in property, plant, equipment, and right-to-use lease assets and Subscription Based Information Technology Arrangement assets (SBITA) net of accumulated depreciation and outstanding debt.
- Restricted net position is divided into two groups: nonexpendable and expendable. Nonexpendable net
  position is typically endowment type funds, which must be invested in perpetuity with only the earnings to
  be used as specified by the donor. Expendable restricted net position is available for expenditure for
  purposes as specified by the providers of the funds, including all government and private grants.
- Unrestricted net position is net position that is not subject to externally imposed stipulations. Unrestricted net position may be designated for specific purposes by actions of management or the board of trustees.

Management's Discussion and Analysis

June 30, 2023 and 2022

(Unaudited)

The following table presents a condensed summary comparison of the College's assets, deferred outflows, liabilities, deferred inflows, and net position at June 30, 2023, 2022, and 2021 in both the financial statement format and by asset and liability type, with the 2021 amounts restated for the adoption of GASB No. 87:

	_	2023	As restated 2022	2021	2023–2022 Change	2022–2021 Change
Per financial statements: Assets:

Bonds payable	-		2,308,937	3,018,582	(2,308,937)	(709,645)
Total liabilities	\$	207,972,336	224,012,172	255,268,844	(16,039,836)	(31,256,672)

Cash and investments increased \$35.5 million or 25% at June 30, 2023 as compared to June 30, 2022, and increased \$42.4 million or 45% at June 30, 2022 as compared to June 30, 2021. The increase in fiscal year 2023 was related to \$23.6 million payments received for prior year appropriation accounts receivables. The increase is also related to decreases in spending as a result of budgetary adjustments. The increase was also due to \$16.1 million payments received for prior year federal accounts receivables. The increase in fiscal year 2022 was related to decreased spending while the College operated remotely the first half of the fiscal year as a result of the COVID-19 pandemic, which included the suspension of all business travel and in person events. The increase was also due to \$16.1 million payments received for prior year federal accounts receivables.

Receivables decreased \$27.6 million or 59% at June 30, 2023 as compared to June 30, 2022, and increased \$11.9 million or 34% at June 30, 2022 as compared to June 30, 2021. The fiscal year 2023 decrease was primarily due a \$23.6 million of collections in operating appropriation receivable from New York City related to retroactive salary increases. The fiscal year 2022 increase was primarily due a \$23.6 million increase in operating appropriation receivable from New York City related to retroactive salary increases. This was offset by \$16.1 million in collections the federal receivables related to the Higher Education Emergency Relief Fund (HEERF).

Capital assets including right-to-use lease assets and SBITA assets, net decreased \$6.3 million or 4% at June 30, 2023 as compared to June 30, 2022, and increased \$11.9 million or 7% at June 30, 2022 as compared to June 30, 2021. The fiscal year 2023 decrease was primarily due to capital additions of \$14.2 million offset by current year depreciation and amortization, of \$20.2 million. The fiscal year 2022 decrease was primarily due to capital additions of \$8 million offset by current year depreciation and amortization of \$20.6 million.

Deferred outflows of resources decreased by \$3.6 million or 11% at June 30, 2023 as compared to June 30, 2022, and decreased by \$3.9 million or 10% at June 30, 2022 as compared to June 30, 2021. The decrease in fiscal year 2023 and 2022 was primarily due to changes in actuarial assumptions related to pension and OPEB amounts.

Accounts payable and accrued expenses decreased \$24 million or 53% at June 30, 2023 as compared to June 30, 2022 and increased \$20.8 million or 85% at June 30, 2022 as compared to June 30, 2021. The fiscal

Management's Discussion and Analysis

June 30, 2023 and 2022

(Unaudited)

year 2023 decreases were primarily related the \$23.6 million payment of retroactive salaries and benefit expenses incurred in 2022 as part of the collective bargaining agreement. The fiscal year 2022 increases were primarily related to an increase in year-end accrued collective bargaining of \$23.6 million as a result of retroactive salary increases.

Due to pooled cash increased \$13.4 million or 48% at June 30, 2023 as compared to June 30, 2022, and increased \$14.9 million or 113% at June 30, 2022 as compared to June 30, 2021. The College utilizes a pooled cash model for handling the cash management of the College and Student Housing. Under the pooled cash model, all cash receipts and payments are centralized in the College's operating bank accounts; cash in excess of immediate needs is maintained as pooled short-term investments in the College's name. The College's accounting system continually tracks Student Housing's "claim on cash" as an automatic offset to each accounting transaction. At fiscal year-end, the Student Housing's "claim on cash" is listed as an asset if it is positive or as a liability if it is negative. The fiscal year 2023 increase was primarily related to a 6% increase occupancy in the dorms. The fiscal year 2022 increase was primarily related to a 68% increase occupancy in the dorms due as the campus completely resumed operations during the fiscal year.

The total OPEB liability increased \$1.8 million or 2% at June 30, 2023 as compared to June 30, 2022, and decreased \$57.4 million or 43% at June 30, 2022 as compared to June 30, 2021. The increases in fiscal year 2023 and 2022 was primarily due to changes in actuarial assumptions.

Lease & SBITA liability decreased \$6.5 million or 13% at June 30, 2023 as compared to June 30, 2022, and decreased \$4.9 million or 9% at June 30, 2022 as compared to June 30, 2021. The changes are due to \$6.5 million in payments of lease & SBITA principal.

Bonds payable decreased \$2.3 million or 100% at June 30, 2023 as compared to June 30, 2022, and \$0.7 million or 23% at June 30, 2022 as compared to June 30, 2021. The decrease in 2023 was due to the amortization of the bond discount and principal payments as well as a \$1.4 million defeasance of the remaining bonds. The decrease in 2022 was due to the amortization of the bond discount and principal payments.

Deferred inflows of resources decreased by \$29.6 million or 34% at June 30, 2023 as compared to June 30, 2022, and increased by \$76.5 million or 732% at June 30, 2022 as compared to June 30, 2021. The decrease in fiscal year 2023 and the increase in fiscal year 2022 was primarily due to changes in actuarial assumptions.

#### Statements of Revenues, Expenses, and Changes in Net Position

The SRECNP presents the revenues earned and the expenses incurred during the fiscal year. Activities are classified as either operating or nonoperating. Revenues received and expenses incurred as a result of providing goods and services to the College's students are considered operating. Nonoperating revenues includes all revenues received for which goods and services are not directly provided, including public appropriations and financial aid programs, gifts, investment income, and capital grants and appropriations. Nonoperating expenses are primarily related to debt service expense and amortization. These recurring operating deficits (\$136 million in 2023, \$162 million in 2022, and \$118 million in 2021) demonstrate the College's dependency on public appropriations.

Management's Discussion and Analysis

In fiscal year 2023, total operating revenues increased by \$2.2 million or 3%, primarily the result of \$1 million increase in tuition and fees a \$1.6 million increase in NYS Grants. Total operating expenses decreased by \$24 million or 9%, primarily related to the \$23.6 million in salary expense due to retroactive salaries recognized in 2022. The decrease in expenses was also due to \$4.4 million increase in the expense for the OPEB liability, net of deferrals.

In fiscal year 2022, total operating revenues increased by \$7.4 million or 9%, primarily the result of \$5.4 million increase in tuition and fees a \$1.9 million increase in restricted fees. These increases were related to a 9% increase in the number of out of state students attending the College. Total operating expenses increased by \$51.1 million or 26%, primarily related a \$27.1 million increase in the expense for the OPEB liability, net of deferrals. The increase in expenses was also due to the recognition of \$23.6 million in accrued salary expenses related to retroactive salaries increases. In conjunction with the adoption of GASB No. 87, the College recorded \$6.4 million in depreciation expense for the amortization of the right-to-use lease asset and \$1.6 million of interest expense related to lease liabilities.

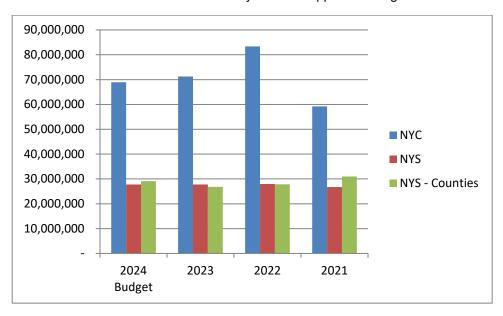

Management's Discussion and Analysis

June 30, 2023 and 2022

(Unaudited)

In fiscal year 2023, the State of New York maintained its support for FIT to \$2,997 per student. New York City, the College's local sponsor, funds the collective bargaining agreement between the College and the United College of Employees (UCE) of FIT. The collective bargaining agreement covers a four period from January 2018 through January 2022. The College awards scholarships through the New York State the Excelsior Scholarship Program which provides tuition-free college at New York's public colleges and universities to families making up to \$125,000 a year phased in over three years. In fiscal year 2023, 2022, and 2021 the NYS Excelsior scholarship awards totaled \$1.2 million, \$1.3 million, and \$0.6 million, respectively.

Enrollment at the College increased to 7,872 full-time equivalent students in fiscal year 2023 as compared to 7,814 students in fiscal year 2022. Enrollment at the College decreased to 7,814 full-time equivalent students in fiscal year 2022 as compared to 8,002 students in fiscal year 2021. At the end of fiscal year 2015, the College learned that New York City had agreed to fund \$74 million for a 100,000 square-foot new academic building; this will match funding of \$74 million, which had been promised by New York State. In fiscal year 2017, New York City agreed to fund an additional \$16.9 million for the new academic building. The College broke ground in the Spring 2021 and anticipates completing the building by Fall 2024.

In fiscal 2022, after an extended closure in response to the COVID-19 pandemic, College re-opened the campus and resumed normal operations, which included domestic business travel, international travel, study abroad programs, and in person events. The College resumed in person teaching, there was a 68% increase in occupancy in the dorms. This increase was offset by a 2% decrease in enrollment. In fiscal year 2023 occupancy in the dorms has increased to 88%, which was 11% higher than last fiscal year, and enrollment at the College has increased by 1%.

## **Contacting the College's Management**

This financial report is designed to provide a general overview of the College's finances and to demonstrate the College's accountability for the resources at its disposal. If you have any questions about this report, need additional financial information, or would like to request copies of the financial statements for any of the component units, please contact: The Office of the Controller, The Fashion Institute of Technology, 227 West 27th Street, New York, New York 10001.

June 30, 2023 and 2022

## (1) Organization and Reporting Entity

The Fashion Institute of Technology (the College or FIT) is a community college under the State University of New York (SUNY) and is sponsored by the Department of Education of the City of New York.

The College is a specialized college of art and design, business, and technology devoted to preparing men and women for careers in fashion and its related professions and industries, and also providing leadership preparation and a full range of liberal arts courses, as well as counseling and placement services, extracurricular activities, and access to the cultural life of New York City. The College has four academic schools: Liberal Arts; Art and Design; Business and Technology; and Graduate Studies. The College occupies five buildings located on a two-block square campus bounded by 7<sup>th</sup> and 8<sup>th</sup> Avenues and West 26<sup>th</sup> to 28<sup>th</sup> Streets in the Borough of Manhattan.

Founded in 1944 as the answer to the recognized needs of the fashion industry for professionally prepared people, the College is a unique institution. In 1975, the College became one of the first community colleges under SUNY empowered to grant the Associate in Applied Science degree, Bachelor of Science, and Bachelor of Fine Arts degrees. In 1979, another amendment was approved authorizing the granting of master's degrees. The College receives its principal support from New York State and New York City appropriations and grants as well as from tuition revenue.

The College is a fully accredited member of the Middle States Association of Colleges and Secondary Schools, the National Association of Schools of Arts and Design, and the Council for Interior Design Accreditation.

The College is a political subdivision and as such is exempt from federal, New York State, and New York City income taxes.

### Reporting Entity

The key element for inclusion in the reporting entity is based primarily on financial accountability. U.S. generally accepted accounting principles defines financial accountability in terms of a primary government (the College) that is financially accountable for the organizations that make up its legal entity. The College is financially accountable for legally separate organizations if its officers appoint a voting majority of an organization's governing body and either it is able to impose its will on that organization or there is a potential for the organization to provide specific financial benefits to, or to impose specific financial burdens on, the College. The College may also be financially accountable for governmental organizations that are fiscally dependent on it. Other organizations for which the nature and significance of their relationships with the College are such that exclusion from the 25ccountial reporting entity would render the reporting entity's financial statements to be misleading or incomplete may also be included in the financial reporting entity.

The accompanying financial statements of the College consist of 25ccountts of the College and its component units. It was determined that FIT Student Housing Corporation (Student Housing) should be included in FIT's financial reporting entity. It was also determined that the Fashion Institute of Technology Foundation (the Foundation) should be included in FIT's financial reporting entity (the FASB component unit).

Notes to Basic Financial Statements
June 30, 2023 and 2022

In addition, under U.S. generally accepted accounting principles, legally separate organizations meeting certain criteria should be discretely presented as component units. The criteria are as follows:

- 1. The economic resources received or held by the separate organization are entirely or almost entirely for the direct benefit of the College, its component units, or its constituents (e.g., students, faculty, and staff).
- 2. The College, or its component units, is entitled to, or has the ability to otherwise access, a majority of the economic resources received or held by the separate organization.
- 3. The economic resources received or held by an individual organization that the College, or its component units, is entitled to, or has the ability to otherwise access, are significant to the College.

Each of the entities listed below met the criteria of the Governmental Accounting Standards Board (GASB) Codification Section 2100, and is, therefore, discretely presented in the College's basic financial statements.

FIT Student Housing Corporation (Student Housing) is a not-for-profit corporation formed by FIT to own and operate certain dormitories. Student Housing owns Nagler Hall, a 10-story building built in 1960; Alumni Hall, an 18-story building that opened in August 1988; co-ed Hall, a 15-story dormitory building; and Kaufman Hall, a 1,110 bed facility at 406 West 31st Street that opened in August 2006. The economic resources provided by Student Housing are almost entirely for the direct benefit of the College's constituents (e.g., students, faculty, and staff).

Fashion Institute of Technology Foundation, Inc. (the Foundation) is a not-for-profit organization that operates exclusively for charitable and educational purposes, including providing scholarships and general support activities to the College. The Foundation has a separate board of trustees from that of the College. The economic resources received and held by the Foundation are almost entirely for the direct benefit of the College. Although the College does not control the timing or amount of receipts from the Foundation, all of the resources and income earned that the Foundation holds and invests are restricted to the activities of the College.

### **Current Economic Conditions**

Between January 2021 and May 2021, the College was awarded a total of \$30,709,775 from the Higher Education Emergency Relief Fund (HEERF) for student and institutional aid. As of June 30, 2023, the College has drawn down the remaining HEERF funds available of \$15,392 for student aid and \$458,561 for institutional aid.

## (2) Summary of Significant Accounting Policies

## (a) Measurement Focus and Basis of Accounting

For financial reporting purposes, the College and its component unit, except the Foundation, is considered a special-purpose government engaged only in business-type activities. Accordingly, the College's basic financial statements have been prepared using the economic resources measurement focus and the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America, as promulgated by the GASB. Accordingly, revenues are recognized in the accounting period in which they are earned and expenses are recognized when incurred.

Notes to Basic Financial Statements

June 30, 2023 and 2022

The Foundation is a private not-for-profit organization that reports under Financial Accounting Standards Board (FASB) statements. Most significant to the Foundation's operations and reporting model are Accounting Standards Codification (ASC) Subtopic 958, *Not-for-Profit Entities*. As such, certain revenue recognition and measurement criteria are different from GASB revenue recognition criteria and measurement features. The financial statements of the Foundation are presented using the GASB format. No modifications have been made to the Foundation's financial information in the College's financial reporting entity for these differences; however, significant note disclosures to the Foundation's financial statements have been incorporated into the College's notes to the basic financial statements. (See note 2(w)).

GASB Statement No. 34, Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments (GASB No. 34) as subsequently amended, established financial reporting requirements that the basic financial statements and required supplementary information (RSI) for general-purpose governments should consist of: management's discussion and analysis, basic financial statements, and RSI.

GASB Statement No. 35, Basic Financial Statements – and Management's Discussion and Analysis – for Public Colleges and Universities – an amendment of GASB Statement No. 34 (GASB No. 35), established accounting and financial reporting standards for public colleges and universities within the financial reporting guidelines of GASB No. 34. In accordance with this statement, the College presents statements of net position, revenues, expenses, and changes in net position, and cash flows.

### (b) Cash and Cash Equivalents

Cash equivalents are composed of highly liquid assets with original maturities of 90 days or less and money market accounts, except for those cash equivalents that are held as investments for long-term purposes and amounts held on deposit with bond trustees.

## (c) Pooled Cash

The College utilizes a pooled cash model for handling the cash management of the College and its auxiliary corporation (Student Housing). Under the pooled cash model, all cash receipts and payments are centralized in the College's operating bank accounts; cash in excess of immediate needs is maintained as pooled short-term investments in the College's name. The short-term investments are made up of money market funds. The College's accounting system continually tracks each corporation's "claim on cash" as an automatic offset to each accounting transaction. At fiscal year end, the auxiliary corporation's "claim on cash" is listed as an asset if it is positive or as a liability if it is negative.

On a monthly basis, interest income earned on the College's pooled short-term investments is allocated to the auxiliary corporation based on their average daily claim on cash balance during the month. In fiscal years 2023 and 2022, allocated interest income was \$2,821,421 and \$217,117, respectively.

## (d) Short-Term Investments

Money market funds with original maturity dates of greater than three months but less than one year from the date of purchase have been classified as short-term investments.

Notes to Basic Financial Statements
June 30, 2023 and 2022

#### (e) Investments

Investments are reported at fair value based on quoted market prices or published prices. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the financial statement measurement date. The fair value hierarchy categorizes the inputs to valuation techniques used to measure fair value into three levels as follows:

- Level 1 unadjusted quoted or published prices for identical assets or liabilities in active markets available at the measurement date;
- Level 2 quoted or published prices other than those included within Level 1 and other inputs that are observable for an asset or liability, either directly or indirectly; and
- Level 3 unobservable inputs for an asset or liability.

The fair value hierarchy gives the highest priority to Level 1 inputs and the lowest priority to Level 3 inputs. When the fair value of an asset or a liability is measured using inputs from more than one level of the fair value hierarchy, the measurement is considered to be based on the lowest priority level that is significant to the entire measurement.

As a public college receiving public funding, the College's investment policy is to seek maximum returns consistent with complete preservation of principal and liquidity. All unrestricted cash is invested by the College's primary bank in insured and/or collateralized certificates of deposits with maturity dates from one month to two years. Unexpended bond proceeds are invested by the bond trustee in money market funds and U.S. Treasury securities, with maturity dates selected to meet anticipated cash needs of the capital projects and bond repayments for which the funds were raised.

The College has determined that all of its investments, including deposits held by bond trustees, are considered Level 1 in the fair value hierarchy noted above.

## (f) Capital Assets

Capital assets include buildings, improvements, infrastructure, furniture, and equipment. Capital assets are defined by the College as equipment and furnishings with an initial unit cost of \$5,000 or more and an estimated useful life in excess of two years and construction/renovation projects costing more than \$10,000. Such assets are recorded at actual cost or estimated historical cost. Donated capital assets are recorded at estimated fair value at the date of donation. Pursuant to New York State Education Law relative to community colleges, title to real property rests in and is held by the local sponsor (The City of New York) in trust for the use and purpose of the College. The College has stewardship

Notes to Basic Financial Statements

June 30, 2023 and 2022

responsibility, and as such, all plant asset activity is recorded by the College. Capital assets are depreciated using the straight-line method over the following useful lives:

	Years
Buildings	37–50
Leasehold improvements	5–10
Building improvements	3–37
Furniture and equipment	3–15
Library materials	5
Software	5

## (g) Leases and Software Based Information Technology Arrangements

The College is a lessee for noncancelable leases of building space and software based information technology arrangements (SBITA). For leases and SBITAs with a maximum possible term of 12 months or less at commencement, the College recognizes lease and SBITA expense based on the provisions of their respective contract. For all other leases and SBITAs that are not 12 months or less, the College recognizes a lease or SBITA liability and an offsetting intangible right-to-use lease or SBITA asset.

At lease or SBITA commencement, the College initially measures the lease or SBITA liability at the present value of payments expected to be made during the lease term. Subsequently, the lease or SBITA liability is reduced by the principal portion of lease or SBITA payments made. The right-to-use lease asset or SBITA asset is initially measured as the initial amount of the lease or SBITA liability, less lease or SBITA payments made at or before the lease or SBITA commencement date, plus any initial direct costs ancillary to placing the underlying asset into service, less any lease or SBITA incentives received at or before the lease commencement date. Subsequently, the right-to-use lease asset or SBITA asset is amortized into depreciation expense on a straight-line basis over the shorter of the lease or SBITA term or the useful life of the underlying asset. If the College is reasonably certain of exercising a purchase option contained in a lease or SBITA, the right-to-use lease asset or SBITA asset will be amortized over the useful life of the underlying asset.

Key estimates and judgments include how the College determines the (1) discount rate it uses to calculate the present value of the expected future lease or SBITA payments, (2) lease or SBITA term, and (3) lease or SBITA payments.

- (1) The College generally uses its estimated incremental borrowing rate as the discount rate for leases and SBITAs unless the rate that the lessor/vendor charges is known. The College's incremental borrowing rate for leases and SBITAs is based on calculating the average rate of interest on long term bond obligation to borrow an amount equal to the lease, under similar terms at the commencement or remeasurement date.
- (2) The lease or SBITA term includes the noncancelable period of the lease or SBITA plus any additional periods covered by either the College or lessor/vendor option to (1) extend for which it is reasonably certain to be exercised, or (2) terminate for which it is reasonably certain not to be

Notes to Basic Financial Statements
June 30, 2023 and 2022

exercised. Periods in which both the College and the lessor/vendor have a unilateral option to terminate (or if both parties have to agree to extend) are excluded from the lease term.

(3) Payments are evaluated by the College to determine if they should be included in the measurement of the lease or SBITA liabilities, including those payments that require a determination of whether they are reasonably certain of being made, such as residual value guarantees, purchase options, payments for termination penalties, and other payments.

The College monitors changes in circumstances that may require remeasurement of a lease or SBITA arrangement. When certain changes occur that are expected to significantly affect the amount of the lease liability, the liability is remeasured and a corresponding adjustment is made to the right-to-use lease asset or SBITA asset. Right-to-use lease asset or SBITA assets are reported with capital assets, net and lease and SBITA liabilities are reported with noncurrent liabilities in the statement of net position, net of the short-term portion of the lease and SBITA liabilities which are reported as current liabilities.

#### (h) Noncurrent Assets

Noncurrent assets, other than capital assets and right-to-use lease asset and SBITA assets, include: (1) cash and other assets or resources commonly identified as those that are expected to be realized in cash or sold or consumed beyond the normal operating cycle (12 months or more) and (2) investments purchased with a long-term objective, which should not be reported as current assets, even though they are within one year of maturity, as the managerial intent was that the resources are not available for current uses or needs.

Cash and investments that are externally restricted to make debt service payments or long-term loans to students, or to purchase capital or other noncurrent assets, are classified as noncurrent assets in the accompanying statements of net position.

## (i) Accrued Vacation and Sick Leave

The College records the estimated value of earned unused sick and vacation pay as a noncurrent liability based on the vesting method. Under this method, vacation is vested when earned for all employees, and sick pay is vested once an employee reaches age 55 and has been employed by the College for the required amount of time stipulated under the College's retirement policies. Employees accrue sick leave based on the number of years employed up to a maximum rate of 17 days per year. Employees also receive annual vacation leave ranging from 20 days to 50 days and may accumulate up to a maximum of one year's entitlement. Any unused vacation pay is payable upon retirement or termination. Accumulated sick leave is forfeited, unless an employee retires and has been employed the required amount of time, in which case 100% of the accrual is paid up to a maximum of 100 days.

#### (j) Unearned Revenue

Unearned revenue primarily consists of tuition and fees collected prior to June 30 for semesters, which begin after June 30, and grants and contracts that have not yet been earned, as all eligibility requirements have not been satisfied.

Notes to Basic Financial Statements
June 30, 2023 and 2022

#### (k) Bond Premiums and Discounts

Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Long-term bonds are reported net of the applicable bond premium and discount.

## (I) Deferred Outflows and Deferred Inflows of Resources

Deferred outflows of resources include deferred amounts relating to the refunding of debt and deferred amounts relating to the net pension asset or liability and total OPEB liability. Deferred outflows of resources are a consumption of net position by the College that is applicable to a future reporting period.

Deferred inflows of resources include deferred amounts relating to net pension asset or liability and the total OPEB liability. Deferred inflows of resources are an increase in net position by the College that is applicable to a future reporting period.

Deferred inflows and deferred outflows of resources are reported for differences between expected or projected results compared to actual results related to the College's share of pension and OPEB amounts as well as changes in the College's proportionate share of the pension plan from the prior period. Deferred outflows of resources resulting from a loss in the refinancing of debt represents the difference between the reacquisition price and the net carrying amount of the old debt and is amortized over the life of the related debt.

## (m) Net Position

Net position is classified into the following four categories:

Net investment in capital assets – This category includes capital assets and right-to-use lease assets and SBITA assets, net of accumulated depreciation and amortization less the outstanding principal balances of debt attributable to the acquisition, construction, improvement, or use of those assets.

Restricted – nonexpendable – This category includes endowment and similar type funds in which donors or other outside sources have stipulated, as a condition of the gift instrument, that the principal is to be maintained inviolate and in perpetuity, and invested for the purpose of producing present and future income, which may either be expended or added to principal. The College does not have nonexpendable restricted net position at June 30, 2023 and 2022. The College's endowment is held by the Foundation.

Restricted – expendable – This category includes resources in which the College is legally or contractually obligated to spend resources in accordance with restrictions imposed by external third parties.

*Unrestricted* – This category includes net position that does not meet the definition of net investment in capital assets and right-to-use assets. Unrestricted net position may be designated for specific purposes by actions of management or the board of trustees.

### (n) Classification of Revenues and Expenses

The College's policy for defining operating activities in the accompanying statements of revenues, expenses, and changes in net position is those that serve the College's principal purpose and generally

Notes to Basic Financial Statements
June 30, 2023 and 2022

result from exchange transactions, such as payments received for services and payments made for the purchase of goods and services. Examples include: (1) tuition and fees, net of scholarship allowances; sales and services of auxiliary enterprises; and (3) most federal, state, local, and private grants, and contracts. Nonoperating revenues include activities that have the characteristics of nonexchange transactions, such as contributions, operating, and capital appropriations from the State and the City of New York, and investment income.

The College classifies all expenses as operating in the statements of revenues, expenses, and changes in net position, except for interest and amortization expense, which is classified as nonoperating.

## (o) Student Tuition and Fee Revenue

Student tuition and fee revenues are recognized in the period earned. Student tuition and fee revenues are reported net of scholarship allowances in the accompanying statements of revenues, expenses, and changes in net position. Scholarship allowances are the differences between the stated charge for goods and services provided by the College and the amount that is paid by students and/or third parties making payments on behalf of students. To the extent that these revenues are used to satisfy tuition and fees, the College has recorded a scholarship allowance.

### (p) Nonexchange Revenue

Nonexchange revenue, in which the College receives value without directly giving equal value in return, includes: federal, state, and local grants; state appropriations; and other contributions. Revenue from grants, state appropriations, and other contributions is recognized in the year in which all eligibility requirements have been satisfied. Eligibility requirements include: timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted; matching requirements, in which the College must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the College on a reimbursement basis.

## (q) New York City Appropriations

As the College's local sponsor, the New York City Department of Education has in recent years funded 25% of the College's operating budget. The fiscal 2023 and 2022 appropriation was \$71,265,331 and \$83,340,851, respectively. In addition, the College's local sponsor funds 50% of approved capital projects. In fiscal years 2023 and 2022, the capital appropriations was \$2,771,169 and \$3,519,604, respectively.

# (r) New York State Appropriations

Operating appropriations received from SUNY are regulated by a financial formula contained in the SUNY regulations. Under the formula, the amount of basic state aid is limited to the lower of 40% of the College's net allowable expenditures or an established rate per full-time equivalent (FTE) student. The basic aid for fiscal years 2023 and 2022 was computed based on the established FTE rate of \$2,997, plus 55% of noninstructional rental costs incurred. The total aid for fiscal years 2023 and 2022 was \$27,760 450 and \$27,980,945, respectively. In addition, capital appropriations received from the local sponsor are matched 100% by New York State. In fiscal years 2023 and 2022 the capital appropriations was \$6,537,208 and \$1,963,758, respectively.

Notes to Basic Financial Statements
June 30, 2023 and 2022

## (s) New York State Counties Chargebacks

The College is authorized by New York State to charge and collect from each county within the state, for every nonresident student, two "chargeback" fees, an operating fee, and a capital fee. These fees are used by SUNY when calculating the sponsor's support for the College.

In fiscal years 2023 and 2022, the College earned \$26,801,647 and \$27,824,559 in operating county chargebacks, calculated at the rate of \$16,800 and \$15,610, respectively, per FTE per year. In addition, the College earned \$456,989 and \$511,531 in capital county chargeback, respectively, calculated at the rate of \$300 per FTE per year; the law requires that these amounts be separately accounted for and that the funds be utilized to meet capital expenditure requirements of future periods.

## (t) Income Tax Status

The College is exempt from federal income taxes under Section 115 of the Internal Revenue Code (the Code). Student Housing is exempt from federal income taxes under Section 501(c)(3) of the Code and a similar provision of the New York State income tax laws.

The Foundation is generally exempt from federal income tax under Section 501(c)(3) of the Code. The Foundation recognizes the effects of income tax positions only if those positions are more likely than not of being sustained. Income generated from activities unrelated to the Foundation's exempt purpose is subject to tax under Section 511 of the Code. The Foundation did not have any material unrelated business income tax liabilities for the years ended June 30, 2023 and 2022.

## (u) Pension Benefits

For purposes of measuring the net pension asset or liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the New York State Teachers' Retirement System (TRS or the System) and additions to/deductions from TRS's fiduciary net position have been determined on the same basis as they are reported by TRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

# (v) OPEB Liability

The College recognizes its total OPEB liability in accordance with GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other than Pensions* (GASB No. 75). GASB No. 75 addresses accounting and financial reporting for OPEB that are provided to the employees of state and local governmental employers. The College's OPEB plan is classified as a single-employer defined benefit plan under GASB No. 75 and is unfunded.

## (w) Fashion Institute of Technology Foundation – Significant Accounting Policies

The Foundation is a not-for-profit organization, which provides scholarships and fundraising activities for FIT.

#### (i) Contributions

Contributions received, including unconditional promises to give, are recognized at fair value in the period received.

Notes to Basic Financial Statements
June 30, 2023 and 2022

## (ii) Investments

The following tables present the restricted long-term investment portfolio of the Foundation at June 30, 2023 and 2022:

	_	Current portfolio	Endowed portfolio	2023 Total
Cash and cash equivalents Equity funds:	\$	_	1,169,395	1,169,395
Domestic		1,695,522	17,244,396	18,939,918

Investments primarily consist of fixed income funds, equity funds, hedge funds, real assets, and private equity, and are maintained in separate unrestricted and restricted portfolios for each fund. The Foundation records investments in equity funds with readily determinable fair values based on quoted market prices. Investment income or loss (including gains and losses on investment, interest, and dividends) is included as increases or decreases in the specific unrestricted net assets unless the income or loss is restricted by the donor or law.

Notes to Basic Financial Statements
June 30, 2023 and 2022

The Foundation reports its investments in funds that do not have readily determinable fair values (alternative investments) at estimated fair value using net asset value (NAV) per share or its equivalent as reported by the investment managers. The estimated fair values may differ significantly from the values that would have been used had a ready market for these securities existed. The Foundation reviews and evaluates the values provided by the fund managers and general partners and agrees with the valuation methods and assumptions used in determining the fair value of the underlying net assets (or partner's capital).

At June 30, 2023 and 2022, \$13,380,851 and \$12,377,505, respectively, of the Foundation's investments are measured at NAV. The remaining investments are reported at fair value and are considered Level 1 in the fair value hierarchy.

Investment securities are exposed to various risks, such as interest rate, market, and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in investments in the near term would materially affect the amounts reported in these financial statements.

#### (iii) Endowment Funds

New York State has enacted the New York Prudent Management of Institutional Funds Act (NYPMIFA). The Foundation has interpreted NYPMIFA as allowing it to appropriate for expenditure or accumulate so much of the donor-restricted endowment fund as is prudent for the uses, benefits, purposes, and duration for which the endowment fund is established, subject to intent of the donor as expressed in the gift instrument absent explicit donor stipulations to the contrary. Accounting guidance associated with the enactment of NYPMIFA as set forth in ASC 958, Section 205-45, Classification of Donor-Restricted Endowment Funds Subject to UPMIFA, requires the portion of a donor-restricted endowment fund that is not classified as restricted nonexpendable to be classified as restricted expendable net position until appropriated for expenditure in a manner consistent with the standard of prudence prescribed by NYPMIFA.

The Foundation's endowment consists of approximately 355 and 350 funds at June 30, 2023 and 2022, respectively. The objective of the Foundation's investment portfolio is to preserve the real (inflation-adjusted) purchasing power of the portfolio while providing a relatively predictable, stable, and constant (in real terms) stream of earnings in line with spending needs. Financial objectives for the Foundation are established to provide for sufficient income to meet the spending needs of the Foundation, as well as to provide for continued capital appreciation of the portfolio. The established objective for investment returns is to generate a return of the Consumer Price Index plus an additional percentage based on the investment objectives and asset allocation structure set by the Finance Committee as described in the investment policy over a 3 to 5 year planning horizon. The Foundation has a spending policy of appropriating for distribution each year 4.50% of the endowment.

Notes to Basic Financial Statements

June 30, 2023 and 2022

Restricted net position related to the endowment, excluding pledges, consists of the following at June 30, 2023 and 2022:

	Unrestricted	Restricted expendable	Restricted nonexpendable	Total
Donor restricted Board designated	\$ — 719,362	12,834,156	37,430,588 ——	50,264,744 719,362

#### (x) Use of Estimates

**Endowment spending** 

Balance at June 30, 2022 \$

The preparation of basic financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and judgments that affect the reported amounts of assets and liabilities and disclosures of contingencies at the date of the basic financial statements and revenues and expenses recognized during the reporting period. Actual results could differ from those estimates. Significant items subject to such estimates and assumptions include the valuation of OPEB and pension amounts.

#### (y) Adoption of Accounting Pronouncements Applicable to the College

In May of 2019, the GASB issued GASB Statement No. 91, *Conduit Debt Obligations*. The primary objectives of this Statement are to provide a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with commitments extended by issuers, arrangements associated with conduit debt obligations, and related note disclosures. The College adopted the provisions of this statement, which did not have a material impact on the 2023 financial statements.

In March 2020, the GASB issued GASB Statement No. 94, *Public Private and Public Partnerships and Availability Payment Arrangements*. The primary objective of this Statement is to improve financial reporting by addressing issues related to public private and public partnership arrangements (PPPs). The requirements of this Statement are effective for reporting periods beginning after June 15, 2022 (fiscal year 2023). The College adopted the provisions of this statement, which did not have a material impact on the 2023 financial statements.

In May of 2020, the GASB issued GASB Statement No. 96, *Subscription Based Information Technology Arrangements (SBITA)* (GASB No. 96). This Statement provides guidance on the accounting and financial reporting for SBITAs for government end users (governments). The requirements of this Statement are effective for fiscal years beginning after June 15, 2022, and all reporting periods thereafter (fiscal year 2023).

The College adopted this GASB Statement as of July 1, 2022, the following table illustrates the impact of implementation of GASB No. 96:

	July 1, 2021 as previously reported	GASB No. 96	July 1, 2021 as restated
Capital assets including right-to-use lease and SBITA assets, net Lease and SBITA liability Net position, beginning of year	\$ 165,316,220 54,405,913 80,205,301	1,043,077 1,043,077 —	166,359,297 55,448,990 80,205,301
	June 30, 2022 as previously reported	GASB No. 96	June 30, 2022 as restated

Increase in net position		13,356,185	(34,375)	13,321,810

#### (z) Reclassifications

Certain 2022 amounts have been reclassified to conform with the 2022 financial statement presentation. These reclassifications had no impact on total net position or changes in net position for the year ended June 30, 2023.

## (3) Cash and Cash Equivalents and Investments

The College follows GASB Statement No. 40, *Deposit and Investment Risk Disclosures* (GASB No. 40), which establishes disclosure requirements related to the following investment and deposit risks:

Custodial credit risk – deposits is the risk that, in the event of failure of a depository financial institution, the College will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party.

Custodial credit risk – investments is the risk that, in the event of failure of the counterparty (the party that pledges collateral or that sells investments to or buys investments from the College) of a transaction, the College will not be able to recover the value of the investment or collateral securities that are in the possession of an outside party.

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations.

Concentration of credit risk is the risk of loss attributed to the magnitude of the College's investment in a single issuer. The College is diversified and is not currently exposed to this risk.

Interest rate risk is the risk that changes in interest rates will adversely affect the fair market value of the investment.

Foreign currency risk is the risk that changes in exchange rates will adversely affect the value of the investment or deposit. The College's exposure to this risk is not significant.

## (a) Custodial Credit Risk - Cash Deposits

The College's cash and cash equivalents are maintained in interest-bearing checking accounts. All cash and unrestricted investments are held in FDIC insured commercial banks and are insured or collateralized with securities held by the College or its agent in the College's name. At June 30, 2023 and 2022, cash and cash equivalents were held by depositories and amounted to \$21,939,239 and \$30,729,931, respectively. In 2023 \$975,100 was FDIC insured and the remaining \$20,964,139 was not covered under FDIC insurance. In 2022 \$1,066,810 was FDIC insured and the remaining \$29,663,121 was not covered under FDIC insurance.

Notes to Basic Financial Statements

June 30, 2023 and 2022

#### (b) Short-Term and Restricted Investments of the College

The College's cash balances are invested in commercial bank money market accounts. All investments are insured or collateralized with securities held by the College or its agent in the College's name. Total investments of the College at June 30, 2023 and 2022 were \$154,454,855 and \$111,620,181, respectively, (original maturities of less than one year), of which all were FDIC insured.

## (c) Deposits with Bond Trustee

Unexpended Dormitory Authority of the State of New York (DASNY) bond proceeds are held by the bond trustee in U.S. Treasury securities and cash, with maturity dates determined by the College's needs for payments to vendors and payments of debt service.

## (4) Appropriations and Grants Receivable, Net

At June 30, 2023 and 2022, appropriations and grants receivable of the College consist of the following:

				2023		
		New York City	New York State	Federal	New York State counties	Total

## (5) Due to/from Affiliated Organizations

At June 30, 2023 and 2022, due to/from affiliated organizations consists of the following:

	 2023	2022
Current portion:		
Expense reimbursements due to the Foundation Program support due to Student Housing	\$  5,400 2,476	63,260
Total due to affiliates	 7,876	63,260
Due from the Foundation:		
Expense reimbursements	95,645	103,648
Program support	 232,855	173,610
Total due from the Foundation	 328,500	277,258
Total current portion	 336,376	340,518
Noncurrent portion: Loan to Student Housing:		
Replenishment of debt service reserve (a)	 7,474,123	7,474,123
Total due from Student Housing	 7,474,123	7,474,123
Total noncurrent portion	 7,474,123	7,474,123
Total	\$ 7,810,499	7,814,641

## (a) Loans to Student Housing

Replenishment of the debt service reserve fund: In May 2008, in order to enable Student Housing to refund the debt service reserve on the 2004 DASNY bonds, the board of the College approved a loan of up to \$9,895,670 over a five-year period, conditioned on a promise to repay when the debt service reserve is no longer required. Monthly interest payments to the College are calculated based on the average interest rate of the College's pooled short-term investments. As of June 30, 2023 and 2022, the total amount owed to the College was \$7,474,123, which is included in the College's noncurrent due from affiliated organizations.

## (7) Bonds Payable

#### (a) The College

In July 2000, DASNY issued Fashion Institute of Technology Revenue Bonds, Series 2000 (the Series 2000 Bonds) in the amount of \$18,515,000, the proceeds of which were used to fund a portion of the College's Master Plan, Phase I, as well as to refinance the outstanding principal amount of \$4,155,000 on the College's Series 1990 Bonds. The Series 2000 bonds were issued at a discount of \$372,128, with interest at variable rates ranging from 4.35% to 5.40% until maturity in July 2030. According to the terms of an agreement between the College, New York City, and New York State, the debt service on the bonds (consisting of semiannual interest payments and annual principal payments) will be covered by appropriations from the state and city.

In October 2007, DASNY issued new bonds in the amount of \$5,860,000 to refinance a portion of the original 2000 Series bonds, which saved New York State an estimated \$475,000 over the life of the bonds. The bonds were sold with a \$184,872 premium, with interest at variable rates ranging from 4.00% to 5.00% until maturity in April 2026. Of the original 2000 Series bonds, \$5,700,000 was refunded. The loss on defeasance on the refunded bonds was \$614,316. In addition, during 2012, DASNY early retired \$5,095,000 of the College's debt utilizing excess debt service reserves.

Notes to Basic Financial Statements
June 30, 2023 and 2022

In July 2017, DASNY issued new bonds in the amount of \$3,090,000 to refinance the 2007 Series bonds, which saved New York State an estimated \$406,000 over the life of the bonds. The bonds were sold with a \$580,033 premium, with interest and variable rates ranging from 4.10% to 5.00% until maturity in April 2026. Annual amortization on the defeasance of \$72,504 is included in the statements of revenue, expenses, and changes in net position under amortization of debt expense.

In October 2018, the \$2,938,473 balance of the Series 2000 bonds was fully repaid utilizing a \$2,585,460 appropriation from New York State, \$344,735 from the debt service reserve fund, and \$8,278 from the debt service fund.

In fiscal year 2023, New York State defeased the remaining potion on the College's outstanding 2017 DASNY bond through two separate transactions totaling \$1,425,000.

In fiscal years 2023 and 2022, New York State's appropriation for debt service was \$2,120,150 and \$735,625, respectively. There was no New York City appropriation in fiscal years 2023 and 2022. These amounts are included in the statements of revenues, expenses, and changes in net position as capital appropriations, gifts, and grants. The bonds are collateralized by pledged revenues and the underlying assets of the College in the unlikely event that either or both New York State and New York City default on their pledges to cover debt service.

## (b) Student Housing

In February 2021, DASNY issued new bonds in the principal amount of \$31,670,000 in response to the significant decrease in dormitory occupancy and related revenue due to the COVID-19 pandemic. The proceeds from the bonds will be used to fund debt services costs of the 2007 series bond for the next three years. The bonds were sold at cost with interest rates ranging from 2.692% to 2.842%. The total amount of \$31,670,000 was outstanding as of June 30, 2023.

On June 9, 2004, DASNY issued FIT Student Housing Corporation Insured Revenue Bonds (2004 Issue) in the principal amount of \$144,545,000, with a premium of \$1,504,334. The total bond proceeds of \$146,049,334 were used to purchase and renovate a building at 406 West 31st Street for use as a 1,100 bed dormitory (which opened in August 2006). The debt service obligation is funded by a pledge of revenue consisting of room rents.

Under the initial terms of the agreement, a Debt Service Reserve Fund was established, into which \$9,895,670 was deposited. During the fiscal year 2006, in order to cover higher than estimated renovation expenses for the 31st Street dormitory, DASNY secured on behalf of Student Housing, the approval of the bond insurer to allow the funds in the Debt Service Reserve Fund to be transferred to the Construction Fund. A total of \$9,698,945 was transferred to the Construction Fund, and additional bond insurance worth \$346,348 was purchased. In addition, during fiscal years 2006 and 2007 at the request of DASNY, Student Housing transferred to DASNY a total of \$6,200,000 to cover additional construction and renovation costs.

In May 2007, DASNY issued new bonds in the principal amount of \$110,935,000 to refinance a portion of the original 2004 Series bonds, which saved Student Housing an estimated \$4,400,000 in debt service payments over the life of the bonds. The bonds were sold on May 31, 2007 with a premium of \$14,639,189. The loss on defeasance on the nonrefunded 2004 bond was \$10,074,947. Annual

Notes to Basic Financial Statements

June 30, 2023 and 2022

amortization on the defeasance in the amount of \$373,146 is included in the SRECNP under amortization of debt expense. The loss on defeasance is recorded in deferred outflow of resources.

The proceeds of the new bonds were placed in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased debt are not included in these financial statements. At June 30, 2023 and 2022, \$84,560,000 and \$89,535,000, respectively, remained outstanding.

Total debt service (annual principal and interest payments) on the combined bonds due for years subsequent to June 30, 2023 is as follows:

						Interest
	_	Principal	Premium		Total	expense
Year(s) ending June 30:						
2024	\$	5,235,000	545,896		5,780,896	5,041,417
2025		5,515,000	545,896		6,060,896	4,751,879
2026		5,800,000	545,896		6,345,896	4,447,379
2027		6,105,000	545,896		6,650,896	4,126,867
2028		6,425,000	545,896		6,970,896	3,789,554
2029–2033		37,560,000	2,729,479		40,289,479	13,233,408
2034–2038		41,340,000	545,894		41,885,894	3,162,999
2039–2040	_	8,250,000			8,250,000

Less current portion				_	(5,235,000)	
Noncurrent						
portion				\$_	116,999,853	

In early 2008, FIT and Student Housing were notified by the bonds' underwriter that because the credit rating of the bond's insurance agency had been downgraded, under the terms of the bond offering, Student Housing would be required to fund the debt service reserve account to the initial level of \$9,895,670 over a five-year period, by making semiannual payments of \$987,243. In order to enable Student Housing to make these payments, FIT agreed to loan Student Housing up to \$9,895,670 over a five-year period (note 10). The first payment to refund the debt service reserve fund was made in June 2008. As of June 30, 2023 and 2022, Student Housing has made payments totaling \$7,474,123, which brought the debt service reserve fund to the required level.

Notes to Basic Financial Statements June 30, 2023 and 2022

## (8) Accounts Payable and Accrued Expenses

Accounts payable and accrued expenses consist of the following at June 30, 2023 and 2022:

	_		2023		
	_	Component			
	_	College	units	Total	
Vendors and other	\$	11,814,962	1,301,356	13,116,318

#### (10) Restricted Deposits with DASNY Trustees

Unexpended DASNY bond proceeds, as well as any "equity" cash contributions made by the College or Student Housing, are held by various trustee banks under contract with DASNY and invested in U.S. government securities (Treasury notes and Treasury bills), with maturity dates of under one year.

#### (a) The College

As part of the original agreement with New York State and New York City, the College made an "equity" contribution of \$4,857,526, which was added to the 2000 DASNY bond proceeds (note 7) to pay for construction costs of the Master Plan projects. To cover additional expenses associated with these projects from fiscal year 2002 to fiscal year 2004, the College contributed an additional \$3,374,005. Both amounts were paid from privately raised gifts.

In April 2003, the College contributed \$2,046,880 as an equity share in DASNY's Personal Income Tax Education 2003A bond offering. The College's share of the proceeds of this offering was used to fund additional Master Plan Phase I projects. By April 2008, because of interest income earned on the unexpended portion, the College's equity share was \$2,329,702. In May 2008, in preparation for the A Building labs renovations, this amount, plus \$721,865 in unexpended equity proceeds from the DASNY 2000 bond issue, was transferred to a separate account maintained by DASNY from which the College's portion of the A Building labs renovation expenses will be paid. The College transferred an additional \$1,000,000 to the account in June 2009 to pay its share of the expenses of the project.

Notes to Basic Financial Statements
June 30, 2023 and 2022

There were no deposits with DASNY trustees as of June 30, 2023. The following table represent deposits with DASNY trustees, consisting of cash and cash equivalents and U.S. government securities, as of June 30, 2022:

	2022			
		sh and cash quivalents	U.S. Treasury bills	Total
DASNY 2017: Debt service fund	\$	615		615
Total DASNY 2017		615	_	615
DASNY building labs renovation			18,444	18,444
Total	\$	615	18,444	19,059

## (b) Student Housing

The following tables represent restricted short-term investments and restricted deposits with bond trustees, consisting of cash and cash equivalents and U.S. government securities, as of June 30, 2023 and 2022:

		2023	
	Cash and cash equivalents	U.S. Treasury bills	Total
Debt service fund Debt service reserve fund	5 2,263 551,797	430,328 20,291,149	432,591 20,842,946
Total	554,060	20,721,477	21,275,537
		2022	
	Cash and cash	U.S. Treasury	
	equivalents	bills	Total
Debt service fund	S 440,646	1,281,781	1,722,427
Debt service reserve fund	24,860	29,606,204	29,631,064
Total	465,506	30,887,985	31,353,491

Restricted deposits with bond trustee are subject to the following risks:

#### (i) Custodial Credit Risk

Custodial credit risk for restricted short-term investments and restricted deposits with bond trustee and amounts held by DASNY is the risk that in the event of a bank failure or counterparty failure,

Notes to Basic Financial Statements

June 30, 2023 and 2022

the College will not be able to recover the value of its cash and investments in the possession of an outside party. All of the investments held are held by DASNY, not in the College's name.

#### (ii) Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of the College's investment in a single issuer. During 2023 and 2022, restricted deposits with bond trustee were not exposed to concentration of credit risk.

## (iii) Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The College does not have a formal investment policy for restricted deposits with bond trustee that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. Investments primarily consist of obligations of the U.S. government and are reported at fair value with maturities of one year or less.

## (11) Employee Pension Benefit Plans

The College provides pension benefits for its employees through contributions to TRS and the SUNY Optional Retirement Program (ORP). These systems provide various plans and options, some of which require employee contributions. Substantially all of the College's full-time staff and faculty are covered by and participate in one of the two pension plans.

TRS issues a publicly available financial report that includes financial statements and supplementary information. The reports may be obtained by writing to:

New York State Teachers' Retirement System 10 Corporate Woods Drive Albany, New York 12211 https://www.nystrs.org/

The following is a brief description of each plan:

#### (a) New York State Teachers' Retirement System

The College contributes to the TRS, a cost-sharing, multiple-employer defined benefit pension plan administered by the New York State Teachers' Retirement System Board. The System provides retirement, disability, withdrawal, and death benefits to plan members and beneficiaries as authorized by the Education Law and the Retirement and Social Security Law of the State of New York. Benefit provisions vary depending on date of membership.

Plan members who joined TRS before July 27, 1976 (Tiers 1 and 2) are not required to make contributions. Those joining after July 27, 1976 and before January 1, 2010 (Tiers 3 and 4) are required to contribute 3% of their annual salary. However, pursuant to legislation effective October 1, 2000, the 3% mandatory contribution to the retirement system ended for employees who have attained 10 years of membership. Those joining on or after January 1, 2010 and prior to April 1, 2012 (Tier 5) are required to contribute 3.5% of salary through their active membership. Those joining on or after April 1, 2012 (Tier 6) are required to contribute between 3% and 6% of salary through their active membership in accordance with a schedule based upon salary earned.

Notes to Basic Financial Statements

June 30, 2023 and 2022

The College is required to contribute at an actuarial determined rate applicable to member salaries and adopted annually by the Retirement Board. The actuarially determined contribution rate applicable to 2021 – 2022 and 2020 – 2021 member salaries was 9.80% and 9.53%, respectively.

Members are generally eligible for service retirement allowances ranging from 1.75% to 2.00% per year of service depending on their membership Tier, subject to certain limitations.

The College's required employer contribution was made for 2023 and 2022, which totaled \$2,429,414 and \$1,819,870, respectively. The employees' contribution for 2023 and 2022 was \$403,591 and \$278,362, respectively.

At June 30, 2023 and 2022, the College's net pension (liability) asset was \$(2,010,749) and \$20,322,596, respectively, which represents its proportionate share of the TRS net pension (liability) asset. The College's proportionate share of the net pension (liability) asset was based on the ratio of the College's actuarially determined employer contribution to the total TRS actuarially determined employer contribution.

The net pension liability reported at June 30, 2023 was measured as of June 30, 2022, and was determined by an actuarial valuation as of June 30, 2021, with update procedures used to roll forward the net pension liability to June 30, 2022. The net pension asset reported at June 30, 2022 was measured as of June 30, 2021, and was determined by an actuarial valuation as of June 30, 2020, with update procedures used to roll forward the net pension asset to June 30, 2021. The proportionate share of the net pension (liability) asset was 0.1048% and 0.1173% measured at both June 30, 2022 and June 30, 2021, respectively.

For the years ended June 30, 2023 and 2022, the College recognized pension expense of \$2,854,049 and \$(701,284), respectively. At June 30, 2023 and 2022, the College reported deferred outflows and deferred inflows of resources related to pensions from the following sources:

		2023		
	_	Deferred outflows of resources	Deferred inflows of resources	
Differences between expected and actual experience Net difference between projected and actual earnings on	\$	2,107,010	40,292	
pension plan investments		2,598,078	_	
Changes of assumptions		3,900,512	809,986	
Changes in employer proportion Employer contribution made subsequent to the		1,580,405	243,593	
measurement date	_	2,429,414		
Total	\$_	12,615,419	1,093,871	

Notes to Basic Financial Statements
June 30, 2023 and 2022

		2022		
	_	Deferred outflows of resources	Deferred inflows of resources	
Differences between expected and actual experience Net difference between projected and actual earnings on	\$	2,801,254	105,585	
pension plan investments		_	21,269,699	
Changes of assumptions		6,684,527	1,183,731	
Changes in employer proportion Employer contribution made subsequent to the		1,332,793	465,040	
measurement date	_	1,819,870		
Total	\$_	12,638,444	23,024,055	

The \$2,429,414 and \$1,819,870 for the years ended June 30, 2023 and 2022, respectively, were reported as deferred outflows of resources related to the College's contributions made subsequent to the measurement date and will be recognized as a reduction of the net pension liability in the subsequent year. The collective other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions at June 30, 2023 will be recognized in pension expense as follows:

Year ended June 30:	
2024	\$ 1,748,094
2025	1,210,847
2026	(69,331)
2027	5,299,421
2028	802,286
Thereafter	 100,817
Total	\$ 9,092,134

#### (i) 2022 Actuarial Assumptions

The June 30, 2022 actuarial valuation, which was rolled forward from the 2021 actuarial valuation, used the following actuarial assumptions that were based on the results of an actuarial experience study for the period July 1, 2015 to June 30, 2020.

Inflation rate of 2.40% was assumed.

Notes to Basic Financial Statements

June 30, 2023 and 2022

Projected salary increases – rates of increase differ based on service. They have been calculated based on recent TRS member experience.

Service	Rate
5	5.18 %
15	3.64
25	2.50
35	1.95

Projected COLAS – 1.3% compounded annually.

Investment rate of return – 6.95% compounded annually, net of pension plan investment expense, including inflation.

Annuitant mortality rates are based on plan member experience, with adjustments for mortality improvements based on Society of Actuaries Scale MP2021, applied on a generational basis.

The long-term expected rate of return on pension investments was determined in accordance with Actuarial Standard of Practice (ASOP) No. 27, *Selection of Economic Assumptions for Measuring Pension Obligations*. ASOP No. 27 provides guidance on the selection of an appropriate assumed investment rate of return. Consideration was given to expected future real rates of return (expected returns, net of pension plan investment expenses and inflation) for each major asset class as well as historical investment data and plan performance.

Best estimates of arithmetic real rates of return for each major asset class included in TRS target asset allocation as of the valuation date of June 30, 2022 is as follows:

Asset class	Target allocation	Long-term expected real rate of return
Domestic equities	33.0 %	6.8 %
International equities	16.0	7.6
Global equities	4.0	7.1
Real estate	11.0	6.5
Alternative investments	8.0	10.0
Total equities	72.0	
Domestic fixed income securities	16.0	1.3
Global fixed income securities	2.0	0.8
High-yield fixed income securities	1.0	5.9
Mortgages	7.0	3.3
Private debt	1.0	3.8
Short-term	1.0	(0.2)
Total fixed income securities	28.0	
Total	100.0 %	

Notes to Basic Financial Statements

June 30, 2023 and 2022

Real rates of return in the table above are net of a long-term inflation assumption of 2.4%.

The discount rate used to measure the total pension liability was 6.95%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from school districts will be made at statutorily required rates, actuarially determined. Based on those assumptions, the System's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

#### (ii) 2021 Actuarial Assumptions

The June 30, 2021 actuarial valuation, which was rolled forward from the 2020 actuarial valuation, used the following actuarial assumptions that were based on the results of an actuarial experience study for the period July 1, 2015 to June 30, 2019.

Inflation rate of 2.40% was assumed.

Projected salary increases – rates of increase differ based on service. They have been calculated based on recent TRS member experience.

Service	Rate
5	5.18 %
15	3.64
25	2.50
35	1.95

Projected COLAS – 1.3% compounded annually.

Investment rate of return – 6.95% compounded annually, net of pension plan investment expense, including inflation.

Annuitant mortality rates are based on plan member experience, with adjustments for mortality improvements based on Society of Actuaries Scale MP2020, applied on a generational basis.

The long-term expected rate of return on pension investments was determined in accordance with Actuarial Standard of Practice (ASOP) No. 27, *Selection of Economic Assumptions for Measuring Pension Obligations*. ASOP No. 27 provides guidance on the selection of an appropriate assumed investment rate of return. Consideration was given to expected future real rates of return (expected returns, net of pension plan investment expenses and inflation) for each major asset class as well as historical investment data and plan performance.

Notes to Basic Financial Statements

June 30, 2023 and 2022

Best estimates of arithmetic real rates of return for each major asset class included in TRS target asset allocation as of the valuation date of June 30, 2021 is as follows:

Asset class	Target allocation	Long-term expected real rate of return
Domestic equities	33.0 %	6.8 %
International equities	16.0	7.6
Global equities	4.0	7.1
Real estate	11.0	6.5
Alternative investments	8.0	10.0
Total equities	72.0	
Domestic fixed income securities	16.0	1.3
Global fixed income securities	2.0	0.8
High-yield fixed income securities	1.0	5.9
Mortgages	7.0	3.3
Private debt	1.0	3.8
Short-term	1.0	(0.2)
Total fixed income securities	28.0	
Total	100.0 %	

Real rates of return in the table above are net of a long-term inflation assumption of 2.4%.

The discount rate used to measure the total pension liability was 6.95%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from school districts will be made at statutorily required rates, actuarially determined. Based on those assumptions, the System's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Notes to Basic Financial Statements
June 30, 2023 and 2022

### (iii) Sensitivity of the Net Pension (Liability) Asset to Changes in the Discount Rate

The following table presents the net pension (liability) asset of the College at June 30, 2023, calculated using the discount rate of 6.95% as well as what the College's net pension (liability) asset would be if it were calculated using a discount rate that is 1-percentage point lower (5.95%) and 1-percentage point higher (7.95%) than the current year rate:

		Current		
	-	1% Decrease (5.95%)	discount rate (6.95%)	1% Increase (7.95%)
2023	\$	(18,540,046)	(2,010,749)	11,890,282

The following table presents the net pension asset of the College at June 30, 2022, calculated using the discount rate of 6.95% as well as what the College's net pension asset would be if it were calculated using a discount rate that is 1-percentage point lower (5.95%) and 1-percentage point higher (7.95%) than the current year rate:

		Current				
	_	1% Decrease (5.95%)	discount rate (6.95%)	1% Increase (7.95%)		
2022	\$	2,132,560	20,322,596	35,610,001		

## (b) SUNY Optional Retirement Program (ORP)

College employees may also participate in the ORP, which is a multiple employer, defined contribution plan administered by separate vendors – TIAA CREF, Fidelity Investments, Met Life, VALIC, and VOYA.

The ORP provides benefits through annuity contracts and provides retirement and death benefits to those employees who elected to participate in the ORP. Benefits are determined by the amount of individual accumulations and the retirement income option selected. All benefits generally vest after the completion of one year of service if the employee is retained thereafter. Employer contributions are not remitted to an ORP plan until an employee is fully vested. As such there are no forfeitures reported by these plans if an employee is terminated prior to vesting.

Employees who joined the ORP after July 27, 1976 and have less than ten years of service or membership are required to contribute 3% of their salary. Those joining on or after April 1, 2012 are required to contribute between 3% and 6%, dependent upon their salary, for their entire working career.

Employer contributions range from 8% to 15% depending upon when the employee was hired. Employee contributions are deducted from their salaries and remitted on a current basis to the ORP.

Notes to Basic Financial Statements
June 30, 2023 and 2022

Employer contributions to the ORP are based on participating employee salaries. Contributions for both fiscal years 2023 and 2022 were 100% of the required contributions and were as follows:

	_		2023	
	_	Payroll	Employer contribution	Employee contribution
College Student Housing	\$ _	81,421,435 990,319	9,727,040 104,707	1,769,667 33,425
	\$	82,411,754	9,831,747	1,803,092
	_		2022	
	_	Payroll	Employer contribution	Employee contribution
College Student Housing	\$	75,120,727 879,100	7,816,428 65,501	1,405,169 10,435
	\$	75,999,827	7,881,929	1,415,604

## (12) Postretirement Health Benefits

### (a) Plan Description

FIT provides retiree healthcare benefits to eligible retirees of the College and its component organizations through the New York City Health Insurance Program. In addition, FIT reimburses a portion of the Part B premium for Medicare-eligible retirees and covered spouses; also, FIT makes contributions to the welfare fund of the United College Employees of FIT (UCE). The plan does not currently issue a stand alone financial report since there are no assets legally segregated for the sole purpose of paying benefits under the Plan. The plan is classified as a single employer defined benefit plan under GASB No. 75. No assets are accumulated in a trust that meets the criteria under GASB No. 75.

Notes to Basic Financial Statements

June 30, 2023 and 2022

Eligibility for plan participation is as follows:

Attained Full-Time Position	Eligibility Requirement
Hired on or before June 30, 1976:	
<ul><li>Age 55+</li><li>Less than 55</li></ul>	10 years continuous service 15 years continuous service*
Hired between July 1, 1976 and August 31, 1985:	
<ul><li>Age 62+</li><li>Less than 62</li></ul>	10 years continuous service 15 years continuous service#
Hired after September 1, 1985:	
Any age	15 years continuous service#

<sup>\* –</sup> Benefits only commence upon attainment of age 55 (i.e., if an employee retires at age 53, benefits commence when employee becomes 55).

# - Benefits only commence upon attainment of age 62.

At the June 30, 2022 valuation date, the following employees were covered by the benefit terms:

	College	Student Housing
Activities	\$ 760	12
Retirees	301	1
Total	\$ 1,061	13

**Healthcare Coverage**: Basic coverage is provided to eligible retirees through the New York City Health Insurance Program. The plans included in this program are community-rated; given the size of FIT's covered population in relation to the total covered population, FIT's actual claims experience has no effect on the premiums charged by these plans.

**UCE Welfare Fund**: FIT pays \$1,670 annually for most eligible retirees to the UCE Welfare Fund. This contribution may change periodically based on collective bargaining agreements.

**Medicare Part B Premium Reimbursement**: FIT reimburses \$58.70 a month toward Part B premium for all Medicare-eligible retirees and covered spouses.

Notes to Basic Financial Statements
June 30, 2023 and 2022

#### (b) Contributions

The terms of the plan are determined through collective bargaining among FIT, UCE, and the City of New York. FIT (and its component organizations) historically has funded the plan on a pay-as-you-go basis and does not anticipate prefunding the plan.

In the fiscal year ended June 30, 2023, current expenses funded for the College and Student Housing were \$2,217,219 and \$4,525, respectively. In the fiscal year ended June 30, 2022, current expenses funded for the College and Student Housing were \$2,685,465 and \$4,656, respectively.

#### (c) Total OPEB Liability

The total OPEB liability measured at June 30, 2023 for the College and Student Housing were \$77,184,826 and \$418,971, respectively. The total OPEB liability measured at June 30, 2022 for the College and Student Housing were \$75,376,030 and \$351,969, respectively.

## (d) Actuarial Assumptions

The total OPEB liability for the June 30, 2023 measurement date was rolled forward from the actuarial valuation as of June 30, 2022 to June 30,2023. The total OPEB liability in the June 30, 2023 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Inflation 2.25%

Healthcare cost trend rates

Pre-Medicare Plans 7.75% for 2023, decreasing to an ultimate rate of 4.04%

at 2075 and years later

Medicare Plans 4.50% for 2023, decreasing to an ultimate rate of 4.04%

at 2075 and years later

The mortality rates used are based on the mortality table in the Pub-2010 Public Retirement Plans Mortality Tables adjusted for mortality improvements with the Scale MP-2021 mortality improvement scale on a generational basis.

The total OPEB liability for the June 30, 2022 measurement date was from an actuarial valuation at the same date. The total OPEB liability in the June 30, 2022 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Inflation 2.25%

Healthcare cost trend rates

Pre-Medicare Plans 6.75% for 2021, decreasing to an ultimate rate of 3.78%

at 2075 and years later

Medicare Plans 4.40% for 2021, decreasing to an ultimate rate of 3.78%

at 2075 and years later

Notes to Basic Financial Statements
June 30, 2023 and 2022

The mortality rates used are based on the mortality table in the Pub-2010 Public Retirement Plans Mortality Tables adjusted for mortality improvements with the Scale MP-2021 mortality improvement scale on a generational basis.

## (e) Changes in the Total OPEB Liability

	2023		
	_	College	Student Housing
Total OPEB liability, beginning of year	\$	75,376,030	351,969
Service cost Interest		3,490,599 2,752,634	70,071 14,860
Differences between expected and actual experience		(1,946,445)	(14,128)
Changes in assumptions and other inputs Actual benefit payments		(270,773) (2,217,219)	724 (4,525)
Net changes (OPEB expense)	_	1,808,796	67,002
Total OPEB liability, end of year	\$_	77,184,826	418,971

		2022		
	_	College	Student Housing	
Total OPEB liability, beginning of year	\$	132,748,375	1,433,747	
Service cost Interest		7,828,062 3,007,448	127,313 33,669	
Differences between expected and actual experience		(19,023,862)	(969,801)	
Changes in assumptions and other inputs Actual benefit payments	_	(46,498,528) (2,685,465)	(268,303) (4,656)	
Net changes (OPEB expense)	_	(57,372,345)	(1,081,778)	
Total OPEB liability, end of year	\$_	75,376,030	351,969	

## (f) Discount Rate

The discount rate used to measure the OPEB liability as of June 30, 2023 and 2022 was 3.65% and 3.54%, respectively, based on the Bond Buyer's 20 Bond Index.

Notes to Basic Financial Statements

June 30, 2023 and 2022

#### (g) Sensitivity of the Total OPEB Liability to Changes in the Discount Rate

The following presents the College's total OPEB liability calculated as of June 30, 2023 using the discount rate of 3.65%, as well as what the College's liability would be if it were calculated using a discount rate that is 1-percentage point lower (2.65%) and 1-percentage point higher (4.65%) than the current year rate:

		Current			
	_	1% Decrease (2.65%)	discount rate (3.65%)	1% Increase (4.65%)	
College total OPEB liability	\$	89,265,716	77,184,826	67,333,920	
Student Housing total OPEB liability		525,404	418,971	336,991	

The following presents the College's total OPEB liability calculated as of June 30, 2022 using the discount rate of 3.54%, as well as what the College's liability would be if it were calculated using a discount rate that is 1-percentage point lower (2.54%) and 1-percentage point higher (4.54%) than the current year rate:

		Current			
	_	1% Decrease (2.54%)	discount rate (3.54%)	1% Increase (4.54%)	
College total OPEB liability	\$	87,249,433	75,376,030	65,696,691	
Student Housing total OPEB liability		438,470	351,969	284,970	

## (h) Sensitivity of the Total OPEB Liability to Changes in the Healthcare Cost Trend Rates

The following presents the College, and Student Housing total OPEB obligation calculated as of June 30, 2023 using the healthcare cost trend rates that are 1-percentage point lower and 1-percentage point higher than the current healthcare cost trend rate:

	D	1% ecrease (6.75% decreasing to 3.037%)	Healthcare cost trend rates (7.75% decreasing to 4.037%)	1% Increase (8.75% decreasing to 5.037%)
College total OPEB liability	\$	67,446,278	77,184,826	89,772,738
Student Housing total OPEB liability		329,409	418,971	546,366

Notes to Basic Financial Statements June 30, 2023 and 2022

The following presents the College, and Student Housing total OPEB liability calculated as of June 30, 2022 using the healthcare cost trend rates that are 1-percentage point lower and 1-percentage point higher than the current healthcare cost trend rate:

	D:	1% ecrease (5.75% decreasing to 2.8%)	Healthcare cost trend rates (6.75% decreasing to 3.8%)	1% Increase (7.75% decreasing to 4.8%)
College total OPEB liability	\$	66,226,815	75,376,030	87,170,842
Student Housing total OPEB liability		282,580	351,696	448,805

# (i) Deferred Outflows and Inflows of Resources

The following are components of the deferred outflows and inflows at June 30, 2023 and 2022:

		2023		
	_	Deferred outflows of resources	Deferred inflows of resources	
College:				
Differences between expected and actual experience	\$	11,047,344	16,146,641	
Changes in assumptions	_	5,985,082	40,082,305	
Total	\$_	17,032,426	56,228,946	
Student Housing:				
Differences between expected and actual experience	\$	7,063	888,545	
Changes in assumptions	_	219,805	426,730	
Total	\$_	226,868	1,315,275	

Notes to Basic Financial Statements
June 30, 2023 and 2022

	_	2022		
	_	Deferred outflows of resources	Deferred inflows of resources	
College:				
Differences between expected and actual experience	\$	13,248,265	16,741,082	
Changes in assumptions	_	7,365,730	47,191,455	
Total	\$_	20,613,995	63,932,537	
Student Housing:				
Differences between expected and actual experience	\$	7,521	927,598	
Changes in assumptions	_	234,074	454,306	
Total	\$_	241,595	1,381,904	

The deferred outflow and deferred inflows of resources at June 30, 2023 will be recognized in expense as follows:

			Student
	_	College	Housing
Year ended June 30:			
2024	\$	6,334,334	65,306
2025		6,333,698	65,306
2026		5,395,633	65,306
2027		4,781,151	65,306
2028		5,797,938	65,306
Thereafter	_	10,553,766	761,877
Total	\$_	39,196,520	1,088,407

## (j) Annual OPEB Expense

In the fiscal year ended June 30, 2023, the annual OPEB expense for the College and Student Housing were \$(96,007) and \$19,625, respectively. In the fiscal year ended June 30, 2022, the annual OPEB expense for the College and Student Housing were \$4,785,143 and \$96,519.

### (13) Leases

#### (a) Lessee

As discussed in note 2(g), the College is a lessee for various noncancellable leases of building space. Lease terms vary from seven to twelve years. The discount rate used for the calculation of the lease receivable is calculated based on the stated rate included in lease or the average rate for the College's long-term debt, at 4% for fiscal year 2023 and 2022.

Notes to Basic Financial Statements
June 30, 2023 and 2022

## (b) Intangible Right-to-use Lease Assets and SBITA Assets

A summary of right-to-use lease and SBITA asset activity for the years ended June 30, 2023 and 2022 is as follows:

				2023		
			Right-to-use le	ease assets and	SBITA assets	
		Beginning		Remeasure-		Ending
	-	balance	Additions	ments	Deductions	balance

2028		4,763,746	352,711	5,116,457
Thereafter	_	9,092,095	321,307	9,413,402
	\$_	42,933,368	4,458,784	47,392,152

## (14) Commitments and Contingencies of the College

The College is obligated to pay, or provide for payment to Student Housing if Student Housing is unable to make payments on its outstanding bond obligation. The bonds are secured by the pledges to Student Housing and its rental revenue, as well as its mortgaged properties and security interests in fixtures and equipment.

Notes to Basic Financial Statements
June 30, 2023 and 2022

The College has received federal and state aid and grants, which are subject to audit by agencies of the federal and state governments. Such audits may result in disallowances and a request for a return of funds to the federal and state governments. The College believes that potential disallowances, if any, have been adequately provided for.

The College is a defendant in certain lawsuits arising in the ordinary course of operations. While the outcome of lawsuits or other proceedings against the College cannot be predicted with certainty, the College does not expect that these matters will have a material adverse effect on its financial position.
