F4D: Giving Back Is the New Luxury
Evie Evangelou

Are you interested in Eco fashion’s sustainable practices?

Fashion 4 Development (F4D) is on the cutting edge.

Join entrepreneur and philanthropist Evie Evangelou, Founding Chair of F4D, for an inspiring evening on fashion and social change. F4D harnesses the power of fashion to empower women through job and business opportunities to build sustainable futures whether they are in Bangladesh, Africa, or Denmark. They fight to conquer poverty through creativity and have influenced various regions around the globe, whether by revitalizing age old craft heritages; helping to develop handloom fabrics with colors that are non-chemically produced and environmentally conscious; or by utilizing progressive microfinance models. Organized in collaboration with the FIT Diversity Council.
