

# FIT Center for Excellence in Teaching Survey, 2018

## 1. How did you learn about the CET?

98 responses

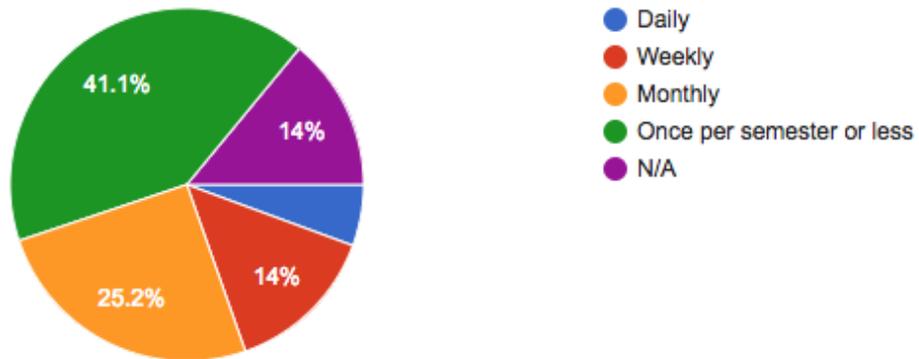

## 2. What CET services do you normally use? (104 responses)

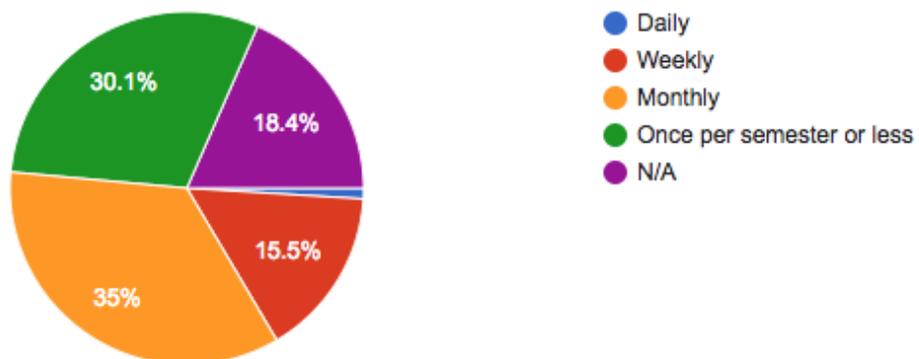

### 3. How often do you use the CET (B 502)?

107 responses

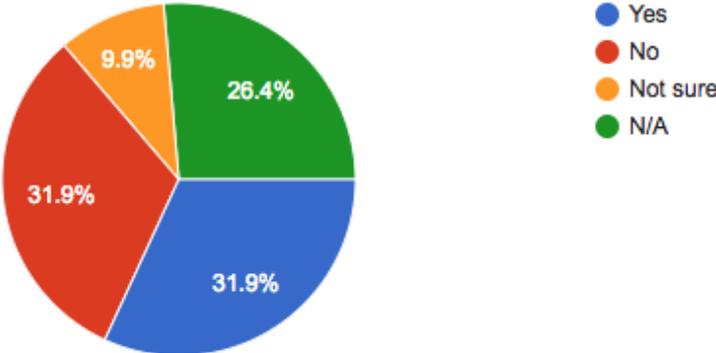

### 4. If you use the CET, website and/or calendar, how often do you use these resources?

103 responses

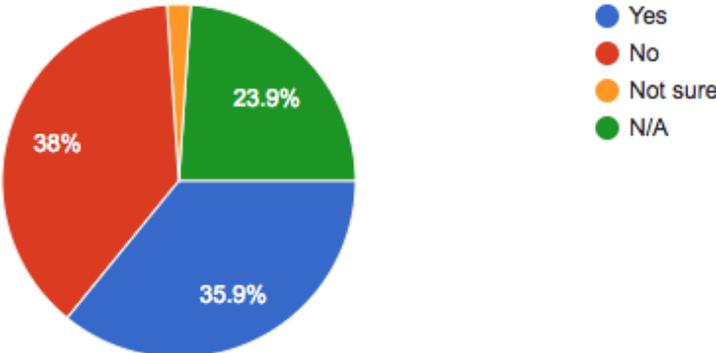

5. If you are an adjunct professor, have you ever visited the CET's adjunct portal?

91 responses

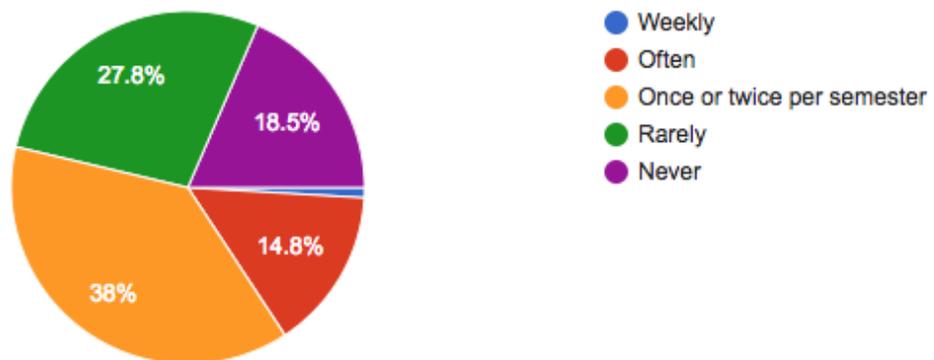

6. If you are an adjunct professor, have you attended an Adjunct Summer Institute?

92 responses

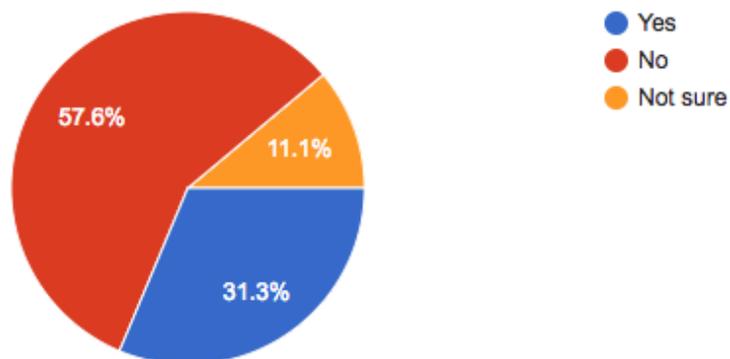

## 7. Do you attend technology training sessions such as Blackboard, Voicethread or the Teaching with Technology Certificate Program?

108 responses

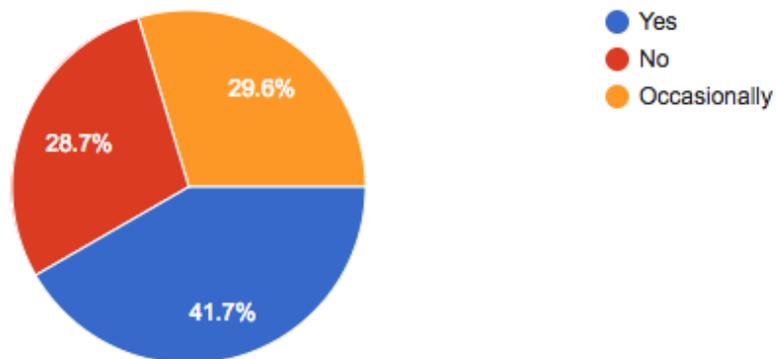

## 8. Have you ever sent us suggestions

99 responses

9. Do you attend faculty development activities such as Student-Faculty Round Tables, , It's Your First Day of Class, New York Times Multi-media Resources, Fulbright, Student Research Matters, Reflective Teaching Portfolio,etc.

108 responses

## 10. Please list technology/software you would like to see added to the CET lab.

44 responses

none

Google Suite

N/A

R software (statistics software)

n/a

not sure of CET actual resources as of today

Camtasia for Mac and Camtasia for Mac training

Brackets or BBEdit

AR; VR

None

I'm not familiar with all the technology/software in the CET yet.

maybe eviews statistics software

JDA

3d tech

Tech that would lower the sign-in wait time to the network ...

Cintique and lessons

VR, Unity

Large format printing

## 10. Please list technology/software you would like to see added to the CET lab.

44 responses

N/A

Camtasia for Mac

n/a

<https://corp.kaltura.com/>

high resolution color scanners

video editing capabilities

Survey monkey

turnitin

Not sure what's already there- I only use what I need at the time

More uses connecting iPhone to Blackboard.

Color photo copiers

Unity Software

Computers

Not sure what to list

None

not sure

n/a

Rhinoceros 3D, 3DCoat, Corel Painter, Zbrush

## 10. Please list technology/software you would like to see added to the CET lab.

44 responses

Lumion,,, I believe you had it on one, but it wouldn't run at the time I tried 2 years ago

SAS, STATA

easy-to-do subtitles

Rhino with V-Ray, Grasshopper

None

Video edit and video creation booth. You seem to have all the basic applications.

Simple stuff for simple professors

No comment

## 11. Which CET sponsored events have changed your teaching practice?

64 responses

Teaching with Tech, First Day of Class.

Blackboard sessions, flipping the classroom

One-on-one sessions with Elaine for teaching suggestions and ideas and Jeff for using Blackboard and teaching tips; Your first day of class; All of the Summer Institute;

N/A

N/A

First day of class

Student Round Table was very informative and Beyond Bamboo Canvas was an excellent event.

I do recall the exact title of it.

Flipping the Classroom - best topic ever!

Blackboard training, Reflective Teaching Portfolio

Haven't attended yet

Student-Faculty Corporation

Teaching portfolio

As a new faculty, the CET was very helpful in helping me understand blackboard.

Reflective Teaching Portfolio / Teaching with Technology

when I was an adjunct I attended the summer adjunct institute.

Master teacher series

Black board

The summer intro session

All! They are great!

Events about more engaging OL class experience

Blackboard training

## 11. Which CET sponsored events have changed your teaching practice?

64 responses

FDG

many

Fulbright and Faculty Round Tables

Reflective teaching portfolio

Voicethread workshop

All

It's Your First Day, Reverse Design, Pathways to Innovation and many others

Teaching with Technology (TWT) certificate, Flipping the Classroom

All

technology seminar

I got recommended a great book the first day I went to CET!

Blackboard training, the new digital syllabus, speaking with Jeffrey, everything I have attended has changed what I do to some extent.

Training and updates to Blackboard

Reflective Teaching Portfolio

Blackboard

VR Day

Flipping the Classroom

None worthless

Consultation

None

many of the seminar.workshops that allowed interaction with colleagues.

summer adjunct institutes and teaching with technology

## 11. Which CET sponsored events have changed your teaching practice?

64 responses

A long time ago there was a session on active learning and that helped create new practice worksheets for my design class that kept my lectures shorter and more interactive.

Meeting with Elaine :)

Adjunct summer institute

Many of the tech ones - learning from consultations with Jeffrey

Blackboard

blackboard

blackboard training

Pathways to Innovation

REFLECTIVE TEACHING PORTFOLIO

ESL seminar

Haven't attended any as yet.

I attended 2 Blackboard sessions geared toward online teaching--it was great!

Reflective Teaching Portfolio, Blackboard, used of diverse technological platforms

blackboard grading

Blackboard

Teaching with Technology

Integrating Social Media Into Teaching

don't know

I can't recall but all I attend help and are useful!

Cintiques and projectors

## 12. Please describe how the event mentioned above has affected your teaching practice.

59 responses

Good tips were provided

I feel better equipped to manage various scenarios that occur in the course of a semester.

N/A

N/A

Prepared me for the new semester

Student Round Table revealed what students use as communication tools and how they perceive education different from the teachers. Beyond Bamboo Canvas showed interesting 3D research tools available through Smithsonian and how international students need specific educational supports.

I have learned from various events, and have tried to apply some of the techniques presented or suggested at the events.

I now flip all my classes within the first two or three semesters of teaching them and everyone -- me and my students -- like it so much better.

Awareness trainings put faculty in closer communication links with students.

n/a

Student voices were heard and reflected.

Blackboard. Jeffrey

I keep a portfolio for each of my courses. The portfolios are useful as I attempt to improve my teaching.

The use of Blackboard has helped me in organizing my class.

Forcing me to reflect on what works well & what could work better was very useful.

“it has been a while now but frankly I felt this was the best adjunct teacher orientation I had ever received at FIT until then. “

Focused more on a flipped classroom

## 12. Please describe how the event mentioned above has affected your teaching practice.

59 responses

### Helpful

Prepared me for the varying expectations of my students ....

Better in classroom! My evaluations oover the top!

Inspired more humorous/fun content

I understand how Blackboard can augment the learning experience and make some 'backend business' easier to track (like attendance and grading).

By funding conference travel to incorporate new information in my lectures.

Introduces me to new technology that enhances my teaching.

Great information from other departments and practices.

### More critical reflections

An education is something one never completes.

I began teaching online and Voicethread was an essential tool. I may not have been as likely to adopt it or to use it so exclusively with this workshop, and my online students continuously give me feedback that the Voicethread lectures are the most helpful part of the course.

Greater awareness of student learning

Each event has given me new viewpoint and/or new approach, new tools to improve my teaching skills.

I am in the longer-term process of flipping all my courses and most of my students really like it. I attended the TwT program a couple of weeks ago and it was fabulous! So this semester, I am using the FIT syllabus (now that I know how to use it), I'm incorporating the library guides into my instruction (rather than just telling my students they exist), and I'm raising my awareness about FITable requirements as I create and post materials in Blackboard.

### Positive reinforcement

I learned about resources I was not using

## 12. Please describe how the event mentioned above has affected your teaching practice.

59 responses

mentioned in 11

Allows me to utilize Blackboard more effectively.

more mindful of teaching each semester!

Better structure

I try to incorporate a primer to the technology in our classes

Gave me tips on how to make the class more interactive

Worthless IT people incompetent

Made improvements and gained awareness how to engage student centered learning

I am now experimenting with a flipped course.

I use more tech in my teaching

She was most helpful.

Learning from experienced teachers and administrators

CET has been the best thing the school has to offer to learn how to practically teach!

more online

Better able to use Bb, better able to teach on line

Gave the heads up on what others were doing and how they were incorporating it in their curriculum

Encouraged me to reflect each semester prior to starting class

Increased awareness of student population

It has helped me gain a better understanding of Blackboard and how I can use it in the classroom and online.

## 12. Please describe how the event mentioned above has affected your teaching practice.

59 responses

I have incorporated technology into my teaching, which has significantly affect the nature of my courses.

Less challenges from students, although one did challenge the computer

Made it easier andbettergorstudent learning

Introduced me to VoiceThread, which I have used often for presenting material and to grade student projects.

Able to learn how to use different kinds of social media and using videos to enhance presentations to engage students

provided good perspectives and techniques. brought to light things for me, as a new instructor, to consider.

more efficient

I think the CET is extremely helpful and useful to adjuncts who really need an institutional support. I have always appreciated the Summer Institute because it gives me a chance to learn more tools to be a better teacher. It's always good to meet other colleagues. Thank you.

N/A

Sometimes, it gets too loud in the CET for me to do work. I know it's not a library, but it's also not a bar. I don't particularly wish to hear the latest in people's political positions while I'm trying to concentrate and get some things done for an upcoming class.

Would love some additional help with a new class and new updates like Pearson Management Lab

I hope CET continue its excellent tutoring and organizing events for teachers.

Whenever I have used CET services, they have always been extremely valuable for the problem that needed a solution.

Love the CET!

The CET is a most valuable resource and is staffed with consummate professionals who are sensitive to the needs of faculty.

Only starting going this semester. Plan to go more often.

I appreciate their service and programming. However, CET should collaborate more with other related departments such as Sustainability Council, Diversity Council, etc to reduce overcrowding.

The staff at the CET are excellent and are a valuable FIT resource for faculty.

The CET is a great and welcoming place, they have helped me with technology issues. They are friendly and professional.

THANK YOU to ELAINE, CELIA, & JEFF! Your help is terrific. It really does make a difference.

none

I feel like one of my students; I'm asking about something I should know about. What is the CET adjunct portal?

The advice to survey students half way through the course, on our own, was very helpful, Jeff mentioned this as a way to navigate student expectations ...

I really appreciate all the time and expertise Jeffrey has offered to help me create an engaging OL class experience.

Wonderful resource, very friendly and helpful support

I feel the CET and the people that work there are an amazing resources!

Have not used CET resources yet as I just started at FIT but looking forward to it.

N/A

So glad to have this valued resource area and exemplary staff available to teachers.

It would be really helpful if various teaching with latest tech (not just familiar tech) events were held via webinars instead of on-ground, since many of us cannot attend on-ground events due to scheduling conflicts. I would be signing up for many more if they were taught via webinars.

Great resources

Elaine, Celia and Jeffrey are knowledgeable, eager and able to share their knowledge with us. Thank you

I love the CET and all the programming you do!

Elaine and team are amazing

Maybe "Not Yet" should be a multiple choice option for this survey

If you're ever looking for a workshop on how to integrate social media into your classes, please let me know. I teach "Social Media Applications." - Emily Miethner, emieth1@gmail.com

CET is a super great resource and am very grateful it is at FIT!

Jeffrey Rimman is always very helpful and wise.

I attended two seminars in the fall. Both were great. I also visit when I have problems with Blackboard and always get first class help

thanks for asking... your help with seminars and workshops is greatly appreciated

The staff is extremely helpful, knowledgeable and courteous. I cannot stress enough how wonderful they have been to me and the faculty who use the Center

IT people rude arrogant and dismissive of real issues

Elaine, Celia, and Jeffrey are all SO helpful -- thank you!!!!

I think the CET is a wonderful resource... I use it often. Although I have not attend a lot of seminars, I have worked closely with both Jeffery and Margret and they have helped me immensely

The administrative staff is always warm, welcoming and knowledgeable. They provide a lovely, embracing atmosphere.

You guys rock :)

You might consider crafting a survey question or two directed towards non-classroom faculty; thank you for all you do!

CET is an amazingly effective resource and i couldn't work without it!

Thank you all for all the impressive work you do!

a great facility and staff! thanks

The CET is great. I just wish more time slots were offered on Tues-Wed-Thurs rather than Fridays

Continue to support innovation and faculty development. Bring back the Technology Conference

CET is an excellent service to all lecturers, professors and others interested in improving education overall

Will love to addend you sponsored events, training etc, but they all seem to occur during the day when I'm at my day job. Is it possible that some of these events can be offered during the afternoon, for example 4, 5, or 6 pm?

"this is my second semester (Spring 2019) of teaching @FIT. I have used CET several times and enlisted the help of Margaret Bishop who is terrific. Scheduling issues have prevented me from using CET more often. A wonderful service. I plan to use more in the future. Jon Tracosas"

I find the the center essential to my understanding of certain processes such as Blackboard and the help I receive is so useful in preparing for the semester and week to week for my courses. Thank you!
