Race/Ethnicity Reporting

Race/Ethnicity categories are based on reporting rules adopted by the federal Bureau of Budget and Management in 1997, which are currently used by the National Center for Education Statistics in IPEDS reporting and in SUNY reporting. Information on citizenship status, Hispanic origin, and race is collected on students. Students who are not citizens or U.S. nationals are reported as nonresident aliens, regardless of how they respond to the Hispanic origin and race questions. Of the remaining students, those who indicate that they are of Hispanic origin are reported as Hispanic, regardless of how they answer the race question.

Hispanic

A person of Cuban, Dominican, Mexican, Puerto Rican, South or Central American, or other Spanish culture or origin, regardless of race.

American Indian or Alaska Native

A person having origins in any of the original peoples of North and South America (including Central America) who maintains cultural identification through tribal affiliation or community attachment.

Asian

A person having origins in any of the original peoples of the Far East, Southeast Asia, or the Indian Subcontinent, including, for example, Cambodia, China, India, Japan, Korea, Malaysia, Pakistan, the Philippine Islands, Thailand, and Vietnam.

Black or African-American

A person having origins in any of the black racial groups of Africa.

Native Hawaiian or Other Pacific Islander

A person having origins in any of the original peoples of Hawaii, Guam, Samoa, or other Pacific Islands.

White

A person having origins in any of the original peoples of Europe, the Middle East, or North Africa.

Nonresident alien

A person who is not a citizen or national of the United States and who is in this country on a visa or temporary basis and does not have the right to remain indefinitely. For the purposes of this report, we use the nonresident alien status to identify international students.

Multi-racial

A person who indicates belonging to more than one race category.

Not Reported

The category used to report students whose race and ethnicity are unknown.

Calculation of Age

Age is calculated as of the first day of the term, using the full date for both student birth date and the first day of the term.

Legal Nation

A student's country of origin as it appears on their student visa to study in the United States.

Permanent Residence Address

A student's permanent address indicates their primary residence, which may be different from the local address where they reside while attending school. For dependent students, the permanent address is often their parents' or guardian's address. The student's residency status for tuition purposes may be different from their permanent residence.
